

# **Polling districts, polling places & polling stations review 2019**

(Acting) Returning Officer's Final Recommendations

October 2019

## Background

In accordance with statute every parliamentary constituency must be divided into polling districts. For each polling district there must be a designated “polling place” and a designated “polling station”.

A polling district is the geographical area which is a sub-division of a constituency or ward. The term “polling place” is not defined in law but it is suggested that it refers to the location in which the polling station is to be situated. Given the geography, density and availability of suitable buildings to use as polling stations at short notice in the BCP Council area, it is proposed to continue the previous practice of designating the entire polling district as the polling place. Polling stations are the physical spaces where the poll takes place.

The designation of the Borough's polling districts and places is the responsibility of the Council. The allocation of polling stations within polling places is not a Council function and is the responsibility of the (Acting) Returning Officer. Although the allocation of polling stations is the responsibility of the Returning Officer for the election concerned, in practice the consideration of the location of likely polling stations will have an important impact on the choice of polling places. The Electoral Commission's Guidance on statutory reviews of polling places and polling districts recognises that the identification of suitable locations for polling stations is a key factor in determining polling places and districts, and consequently this has been a significant factor in forming the basis of final proposals.

This report breaks down the (Acting) Returning Officer's recommendations to District ward level and gives details of any proposed changes. The (Acting) Returning Officer has, where applicable, considered known issues during the preparation of this document.

All of the polling stations currently used have been visited during the last local election for risk assessment purposes and these comments have also been taken into consideration.

The (Acting) Returning Officer is proposing to keep the existing polling arrangements where they remain adequate and to make changes only where circumstances require. The intention is not to make changes unless they are needed and justified.

In preparing this submission, the (Acting) Returning Officer has considered the accessibility levels of current polling stations, current levels of postal voting, new and proposed developments, proposals for changes made by the (Acting) Returning Officer's staff following the formulation of the new BCP Council and any comments received from individuals and groups as part of the recent initial consultation process.

Every submission received during the consultation periods has been carefully considered, however, in some cases it has not been possible to meet every suggestion made.

It should be noted that prior to an election, polling stations are the subject of an annual review process and whenever a building becomes unavailable or a more suitable building has been identified (particularly from an access point of view), a change has been made. This annual smaller scale process will continue, until the next full review is undertaken.

The aim is to reflect the changes brought about during the review in the register to be published on 1 December 2019.

## Review Guidelines

The following considerations have been taken into account when drawing up these proposals. The first two are required by electoral law; the others are guidelines, not strict rules.

1. The Council must seek to ensure that all electors have such reasonable facilities for voting as are practicable in the circumstances.
2. The Council must seek to ensure that so far as is reasonable and practicable every polling place is accessible to electors who are disabled.
3. Ideally, the polling place should be in its own polling district.
4. Ideally, there should be no more than 2500 electors (excluding absent voters) per polling station. *It should be noted that although the guidelines suggest an ideal number of electors per polling district there are several polling districts in the BCP Council area that have over 2500 electors. In these cases, the issue of large elector numbers at the polling station will be dealt with either by the provision of additional polling station staff and equipment, or by arranging for there to be 2 polling stations within one polling place (otherwise known as a 'split' or 'double' station).*
5. Preferably, no polling place should be shared by two wards.
6. Schools should only be used where there is no other suitable permanent building available, because of the potential disruption to educational provision.
7. Portacabins (mobile units) should only be used where there is no other reasonable option, as these are costly to operate.

## The Review Process

- Stage 1 - Intelligence and data collection. Statistical information was collated including electorates, postal voters and turnout at the last elections. Maps of each ward were produced.
- Stage 2 – Publication of the Notice of Review. Initial consultation email was sent to stakeholders including Councillors, MPs and local residential groups. Statistical data and maps were published on the BCP Council website.
- Stage 3 – Representations made by individuals during the first stage of consultation were collated and published in the (Acting) Returning Officer's Initial Proposals report.
- Stage 4 – Consultation period. Comments and suggestions in respect of the (Acting) Returning Officer's Initial Proposals were collated and recorded within this report.

## Consultation

During the review any elector in a constituency located wholly or partly in the Council's area may make representations. By law, representations must also be sought from such persons as the Council considers to have particular expertise in relation to access to premises or facilities for persons who have different forms of disability; such persons must also have an opportunity to make representations and comment on the (Acting) Returning Officer's representations..

Copies of the (Acting) Returning Officer's proposals were published on the elections section of the Council's website and provided an email address to submit comments. The proposals were also available for inspection at Council offices.

The (Acting) Returning Officer sought representations from the following groups:

- a) BCP Councillors
- b) Local political parties
- c) MPs
- d) Local residents' associations
- e) Dorset Blind Association and Diverse Abilities

Several responses were received from electors and councillors. These are detailed in Appendix 3.

## The Final Proposals

The final proposals meet the statutory requirements that the Council must consider when designating polling districts and polling places.

Throughout the review, consideration was also given to the following factors:

- (a) geographical size of polling districts;
- (b) size of the electorates of polling districts (however, a large polling district electorate may not itself be an issue, provided that its polling place is such that the required number of polling stations can be properly accommodated);
- (c) need for polling districts to have boundaries that enable it to contain a suitable polling place;
- (d) distance of the polling place from all areas of the polling district;
- (e) features of the polling district's geography;
- (f) accessibility of the polling place to disabled electors;
- (g) the likely location of any polling station(s) within the polling place, including consideration of their accessibility for disabled electors;
- (h) suitability of the polling place in terms of the space required to effectively conduct polling.
- (i) the need to minimise disruption caused to schools and other premises. The (Acting) Returning Officer is entitled to use free of charge, schools maintained or assisted by the local authority as well as those schools that receive grants made out of monies provided by parliament. However, where alternative venues are available within the polling district, the use of schools has been avoided.

**The final proposals for approval are:**

**a) To make minor amendments to the existing Polling District boundaries for:**

- i. AB3 & AB4 – Alderney & Bourne Valley Ward
- ii. BM5 & BM6 – Bearwood & Merley Ward
- iii. CC1 & CC2 – Canford Cliffs Ward
- iv. QP2 & QP3 – Queen’s Park Ward

**b) To combine the following Polling Districts into one:**

- i. HW2 & HW3 – Highcliffe & Walkford Ward
- ii. MS7 & MS8 – Muscliff & Strouden Park Ward
- iii. PS2 & PS3 – Parkstone Ward
- iv. PT4 & PT5 – Poole Town Ward

**c) To continue to designate the entire Polling District as the Polling Place for that Polling District**

## **The Tables**

This report deals with each District ward separately. For existing polling arrangements, the tables show:

- The polling district
- The Constituency area and Parish area (if applicable)
- The number of properties, the number of electors as at 1st July 2019 (as at commencement of the Review) and the number of postal voters
- The percentage turnout at the last local election and the current polling station address

Any subsequent comments, suggestions or submissions received during both consultation periods have been documented along with the initial proposals and final recommendations from the (Acting) Returning Officer

*It should be noted that although the current polling station arrangements show a comment of “adequate”, this does not necessarily mean that the polling station is ideal, but that any shortcomings can be dealt with by the provision of equipment such as ramps and by the polling station staff at the time of an election.*

### **Comments & suggestions received during initial consultation:**

AB1 - Electors in the North East corner are separated by the main Ringwood Road & Canford Way and find it hard to get to the current polling station.

AB3 - To split AB3 creating a new polling district for the Bloxworth Estate. The remaining part of AB3 could absorb part of AB4 (Arne Avenue, Arne Crescent, Bindon Close & Northmere Drive), then electors could vote at the new 'Hub' on land between Arne Avenue and Arne Crescent.

AB4 - The Gateway Church is not easily accessible and parking is difficult. To use the new 'Bourne Mini Hub' in Arne Crescent as a polling station. To give away Arne Avenue, Arne Crescent, Bindon Close and Northmere Drive to AB3. AB4 could absorb parts of AB5 - Alder Heights, Alder Road & Rowe Gardens.

AB6-A - Residents have to go past the station at the Branksome Railway car park in order to reach their allotted polling station.

### **(Acting) Returning Officer's initial proposal/comments:**

AB1 - There would be approximately 463 properties affected so this would be a very small polling district if separated and the cost of providing an additional polling station would be approximately £1,035. Although the current arrangements for this area are not ideal, there are no changes proposed at this time. The number of electors voting in person is under the 2,500 recommended Electoral Commission thresholds, so to align with other wards within the BCP Council area in future this polling station may not be split in two.

AB2 - Currently no level disabled access so an alternative location would be preferred, however in the absence of any other suitable alternative location

suggested or identified, there are no changes proposed to the current arrangements.

AB3 - Propose moving the following roads to AB4 - Cranborne Crescent, Grange Gardens, Herbert Avenue, Melbury Avenue, Milborne Crescent, Shillingstone Gardens, Solly Close, Turbary Close, Turbary Road, Winfrith Crescent, & Wyvern Close, which would leave approximately 974 properties. Propose to reinstate the former temporary polling station on land in Slepe Crescent which would be more accessible to electors.

AB4 - Propose absorbing the southern area of AB3 (Melbury Avenue and adjoining roads) and roads on the western border of AB5 (Alder Heights, Alder Road & Rowe Gardens). Propose to change the polling station location to the Bourne Mini Hub (subject to suitability assessment).

AB5 - An alternative location would be preferred over the use of a temporary building, however in the absence of any other suitable premises suggested or identified, there are no changes proposed to the current arrangements.

AB6 - Please note the boundaries of this polling district cannot be altered due to the Parliamentary Constituency. The current polling station arrangements are adequate - no changes proposed.

AB6-A - This polling district is segregated within the Ward by polling district AB6 (which belongs to a different Parliamentary Constituency), and has no direct road links to any other polling district in the Ward. For logistical reasons it is recommended that electors in this area will vote at the Branksome Centre for Local elections, but for Parliamentary elections will vote at the temporary station in Branksome Railway car park.

#### **Comments received on the (Acting) Returning Officer's initial proposals:**

None.

#### **(Acting) Returning Officer's final recommendations:**

To change the boundaries of polling districts AB3 and AB4 (as detailed above), to reinstate the previously used temporary building site on land at Slepe Crescent for AB3, and to designate the Bourne Mini Hub as a new polling place for AB4.

None.

**(Acting) Returning Officer's initial proposal/comments:**

Polling station arrangements are adequate - no other changes proposed.

**Comments received on the (Acting) Returning Officer's initial proposals:**

BM6 – proposal to move a single property (139 Runnymede Avenue) to join the rest of the street in BM5.

**(Acting) Returning Officer's final recommendations:**

To alter the boundary between BM5 and BM6 to keep all properties in Runnymede Avenue together.

<b>Totals</b>			<b>7123</b>	<b>8141</b>	<b>941</b>	<b>19.40%</b>	

### **Comments & suggestions received during initial consultation:**

BC1 – This polling station should be changed to a different location within the Town Hall complex so it is accessed from a point away from the Customer Contact Centre.

### **(Acting) Returning Officer's initial proposal/comments:**

The most appropriate room available within the Town Hall complex will be secured for each election.  
Other polling station arrangements are adequate – no changes proposed.

### **Comments received on the (Acting) Returning Officer's initial proposals:**

None.

### **(Acting) Returning Officer's final recommendations:**

The most appropriate room available within the Town Hall complex will be secured for each election.

## **Broadstone Ward**

<b>Polling District Ref.</b>	<b>Constituency</b>	<b>Parish</b>	<b>Properties</b>	<b>July 2019 Electorate</b>	<b>Postal Voters</b>	<b>% station turnout (May 2019)</b>	<b>Current polling station</b>

<b>Totals</b>			<b>4448</b>	<b>8787</b>	<b>1809</b>	<b>40.70%</b>	

### **Comments & suggestions received during initial consultation:**

BS2 & BS3 – The Junction Leisure Centre is unsuitable due to the lack of free parking and the station is located on the first floor. If free parking was made available in the pay and display car park, this would be more acceptable. Suggestion received to use the Youth Club building in Moor Road, which is Council owned so could be used without cost. It has level access and should be large enough to house two polling stations.

### **(Acting) Returning Officer's initial proposal/comments:**

BS2 & BS3 – Propose to use the Youth Club in Moor Road, subject to agreement by the Management Committee and a suitability assessment. Other polling station arrangements are adequate – no changes proposed.

### **Comments received on the (Acting) Returning Officer's initial proposals:**

None.

### **(Acting) Returning Officer's final recommendations:**

To use the Youth Club in Moor Road as the polling station for BS2 and BS3 – subject to agreement and pending a suitability assessment.

### **Burton & Grange Ward**

**Comments & suggestions received during initial consultation:**

TB4 – Comment received: No problem with St Marks Church other than residents having to cross the Wallisdown Road. Suggestion received to use Talbot House in the Bournemouth University complex.

**(Acting) Returning Officer's initial proposal/comments:**

TB4 – Using a Bournemouth University building has been explored previously. Taking into account the planned works (for the next year at least), it will not be suited to a polling station location at the current time. – Propose no change at present.  
Other polling station arrangements are adequate – no other changes proposed.

**Comments received on the (Acting) Returning Officer's initial proposals:**

None.

**(Acting) Returning Officer's final recommendations:**

No changes proposed to the current arrangements.
