

BCP Health and Well-being Board

Report subject	Outcome of Health and Well-Being Board Development Session on 28.11.2019
Meeting date	30 January 2020
Status	Public Report
Executive summary	<p>The BCP Health and Well-Being Board held a Development Session on 28.11.2019 which covered three items:</p> <ul style="list-style-type: none"> i) Multi-agency responses to working with our communities of highest deprivation ii) Priorities for the Health and Well-Being Board and development of a BCP Health and Well-Being Strategy iii) Priorities for a Local Government Peer Review of Special Educational Needs and Disabilities integrated working in January 2020. <p>For item i), representatives of the BCP Community Safety Partnership participated in the meeting.</p> <p>At the Development Session, partners made decisions which are set out in the Record of the meeting which is attached at Appendix 1. This report recommends that the Board approve the public record and the decisions taken at the Development Session and also requests that officers develop a BCP Health and Well-Being Strategy in line with the framework work set out in Appendix 2 which includes discussions and recommendations agreed by Board members at the Development Session.</p>
Recommendations	<p>It is RECOMMENDED that the Board:</p> <ul style="list-style-type: none"> 1) Approves the public record of the Development Session, including the decisions as recorded in this document (See Appendix 1) 2) Approves the framework for a BCP Health and Well-Being Strategy as set out in Appendix 2 and requests that officers use the framework to develop a Health and Well-Being Strategy for the BCP Health and Well-

	Being Board for the Board's consideration at its meeting on 17 th June 2020.
Reason for recommendations	Following the BCP Health and Well-Being Board's Development Session in November 2019, it is important to publish both the record of the meeting and for the Board to approve and follow up on the actions agreed at this meeting.

Background

1. The BCP Health and Well-Being Board held a Development Session on 28.11.2019 which covered three areas:
 - i) Multi-agency responses to working with our communities of highest deprivation
 - ii) Priorities for the Health and Well-Being Board and developing a BCP Health and Well-Being Strategy
 - iii) Priorities for a Local Government Peer Review of Special Educational Needs and Disabilities.

Section i) of the meeting was also attended by BCP Community Safety Partnership representatives.
2. Appendix 1 of the report contains a record of the key discussions and also decisions taken at the session and the Board is asked to approve the record and the decisions taken.
3. Key decisions taken were as follows:
 - i) Multi-agency responses to working with our communities of highest deprivation
 - a) All partners agreed that there would continue to be structured multi-agency working in the Boscombe area and in a geographical area where there are indices of high deprivation which includes Kinson/West Howe.

- b) All partners agreed to set-up and participate in a Task and Finish Group which would develop further a strategy to empower and work with all communities where there is entrenched and emergent deprivation. This group will be chaired by the Corporate Director for Environment and Communities, BCP Council and all partners will nominate representatives to the Working Party.
 - c) That Public Health would liaise with the BCP and Dorset Health and Wellbeing Boards to ensure that key elements of work with communities of deprivation (such as data collation and analysis) in the two Health and Well-Being Board areas are delivered in a coherent way so that agencies which cover both areas are not required to duplicate activity and that maximum engagement and impact is achieved in each individual community.
- ii) Priorities for the Health and Well-Being Board and developing a BCP Health and Well-Being Strategy
 - a) That the framework for a Health and Well-Being Strategy as presented would form the basis for the development of the BCP Health and Well-Being Strategy with the following additions/amendments:
 - to include an aim 'to ensure children and young people have the best start in life';
 - that the wording of the focus of working with highest need communities must reflect the importance of being community led.
- iii) Priorities for the Local Government Peer Review of Special Educational Needs and Disabilities

The members of the Board agreed the priorities areas for the SEND review and these are recorded in Appendix 1 and have been incorporated into the programme for the Peer Review.

4. An outline framework for a BCP Health and Well-Being Strategy is attached at Appendix 2. This incorporates proposals and additions raised in the Development Session. The Board is asked to approve this outline framework and to request that officers use this to develop a Strategy which is presented to the Board for consideration and approval on 17th June 2020.

Summary of financial implications

5. The decisions taken at the Development Session mean that all agencies commit to contribute their agency resources as appropriate in relation to collective aims and areas of focus of the developing Health and Well-Being Strategy. This means committing personnel as well as relevant financial resources. It was recognised that in the Development Session that local people and communities will be key contributors to the plans and outcomes intended and that the community and

voluntary sector, the private sector, local businesses, schools and education providers will all need to be engaged as active partners in fulfilling the aims of the Strategy. The Health and Well-Being Board and its partner agencies will look to attract government and other external funding to support the delivery of the Strategy.

Summary of legal implications

6. Health and Well-Being Boards are required to publish a Joint Health and Well-Being Strategy, under the provisions of the Health and Social Care Act 2012.

Summary of human resources implications

7. All partners of the Health and Well-Being Board will work to ensure that their staff understand and contribute to the strategic aims of the Board as will be set out in the Health and Well-Being Strategy.

Summary of environmental impact

8. The proposed Health and Well-Being Strategy recognises the Climate and Ecological Emergency and commits to ensure that the Board's Strategy and collective actions work to address this.

Summary of public health implications

9. The Health and Well-Being Strategy will be key in ensuring that all partners work together to improve health and well-being in the BCP Council area with an overarching objective set to extend healthy life expectancy at Council and neighbourhood population level.

Summary of equality implications

10. The Health and Well-Being Strategy needs to ensure that it is relevant to all residents and particularly those who have protected characteristics and those who experience poverty and deprivation. It is recognised that the strategy must be delivered by being community led and be based on the principle of delivering personalised responses to individuals and families. In particular, the BCP Health and Well-Being Board is making a commitment to ensuring that every child has the opportunity to have the best start in life and to improving outcomes for children, young people and young adults who have Special Educational Needs and Disabilities.

Summary of risk assessment

11. The delivery of the aims and objectives of the Health and Well-Being Strategy are dependent on the collective commitment of all partners and on ensuring that all partners work with a community led and engagement approach and put co-production with children, families and adults who use services at the centre of all activities. In order to achieve successful delivery of the Strategy, partners will need to work with commitment to these principles.
