

Decision Impact Assessment Report

Household Waste Recycling Centres (HWRC) Policies Review

DIA Proposal ID: 172

Assessment date: 21st October 2020

Assessor(s): John Andrews

Support: Roxanne King

The Decision Impact Assessment (DIA) is a requirement of BCP Council's Financial and Procurement Regulations. It has been developed to help project managers maximise the co-benefits of proposals, reduce risk and ensuring that sustainable outputs and value for money are delivered through every project, plan, strategy, policy, service and procurement.

The following report highlights the opportunities and potential issues associated with the above titled proposal. It has been assessed against a number of themes and shared with BCP Council Theme Advisors for internal consultation. The RAG ratings and additional information have been provided by the project manager and may or may not have incorporated feedback from theme advisors. Results should be scrutinised by decision-makers when considering the outcome of a proposal.

The results of this DIA will be combined with all other assessments to enable cumulative impact data across a wide range of data sets. Individual DIA reports should be included in proposal documentation and made available to decision makers for consideration. Cumulative impact reports will be produced annually or as required by the Climate Action Steering Group and Members Working Group.

For questions and further information, please contact Sustainability Team at DIA@bcpcouncil.gov.uk

Please note: This report is in a draft format and may appear different to future DIA reports.

Proposal Title	Household Waste Recycling Centres (HWRC) Policies Review
Type of Proposal	Policy
Brief Description	Alignment of Charities Waste Acceptance Policy, Van Permit Scheme, Chargeable Waste Policy, Opening Hours and Pedestrian Access to HWRCs Policy across BCP HWRC sites.
Assessor	John Andrews, Project Officer
Directorate	Environment & Community
Service Unit	Environment
Estimated Cost	No cost
Ward(s) Affected	All wards

Sustainable Development Goals (SDGs) Supported:

RAG reasoning and proposed mitigation/monitoring actions

Theme	RAG	RAG reasoning <i>Details of impacts including evidence and knowledge gaps</i>	Mitigation and monitoring actions <i>details of proposed mitigation/remedial action and monitoring (inc. timescales, responsible officers, related business plans etc)</i>
Climate Change & Energy		Alignment of policies will enable efficiencies of scale with regards to marketing materials, officer time in making website changes etc.	If approved, policies in place from April 2021.
Communities & Culture		Policy alignment will benefit some HWRC users but may reduce accessibility for a small number of van users.	Engagement with HWRC users to explain reasoning for policy amendments i.e. parity of service, reduction in illegally tipped commercial waste. Public feedback received regularly.
Waste & Resource Use		Policy review will not introduce new policies, simply align services across HWRC sites. Parity of service should encourage use of HWRCs through consistency of service provision.	Policy review dates to be decided.
Economy		No significant economic impacts.	N/A
Health & Wellbeing		No health and wellbeing impacts identified.	N/A
Learning & Skills		No learning delivered through this policy alignment.	N/A

Natural Environment		No additional environmental impacts.	N/A
Sustainable Procurement		No procurement involved.	N/A
Transport & Accessibility		Policy wording and subsequent communications will clarify pedestrian site access.	None.
