## Background

- Any council operating a cabinet model must by law have at least one overview and scrutiny (O&S) committee to provide in depth test and challenge to decisions made by the Cabinet, and to support the Cabinet in developing policy. BCP Council has one Overview and Scrutiny Board with overall responsibility for the whole O&S function and a wide breadth of scrutiny responsibility; and two Overview and Scrutiny Committees based on scrutiny of children's services, and adults and health services. The relationship between these O&S bodies and the Cabinet is integral to the decision-making structure of the Council and to the enablement of robust decision making. This relationship is reflected in principle one of the six principles of good scrutiny, outlined in Part 1 of the Council's Constitution, as follows:
  - Contributes to sound decision making in a timely way by holding decision makers to account as a 'critical friend'.
  - A member led and owned function – seeks to continuously improve through self-reflection and development.
  - Enables the voice and concerns of the public to be heard and reflected in the Council's decision-making process.
  - Engages in decision making and policy development at an appropriate time to be able to have influence.
  - Contributes to and reflects the vision and priorities of the council.
  - Agile – able to respond to changing and emerging priorities at the right time with flexible working methods.

These principles underpin the Overview and Scrutiny function and its work.

- During Autumn 2020 the members of the O&S Board undertook refresher training and worked with a representative of the Centre for Governance and Scrutiny (CfGS)

to reflect on the work of the Board to date, it's alignment to the above principles and to consider how best to develop the Board's future direction. Overview and Scrutiny members reported a wish to be more informed of medium to long term Cabinet priorities, and to undertake more 'overview' work such as participating in the development of policy at an earlier and more influential stage. To address this, at the meeting of 7 December 2020 the Board agreed to trial a programme of Portfolio Holder reports to the Board. It was hoped that this would provide opportunity for the Board to strengthen how it fulfils the six principles listed in paragraph 1 above, by:

- providing space through each of the Portfolio Holder reports for in depth two-way discussion on a specific Cabinet area;
- aiding a better understanding by O&S members of medium to long term Cabinet priorities and where O&S may add value to these through assisting in policy development;
- providing opportunity for all non- executive members to provide more insight and engagement to overview and scrutiny through the submission of questions to be answered by the Cabinet Portfolio Holder;
- developing the relationship between O&S and the Cabinet in order to strengthen decision making.

The O&S Board agreed that Portfolio Holder reports should follow a pattern of one per month, commencing in January 2021, with other meeting items themed to align to the reporting areas where possible. The opportunity to submit questions for the Executive member would be advertised to all non-Executive councillors in advance of the meeting.
