3 Burials

3.1 Hours of burial

The hours during which burials may take place are as follows:

Monday to Thursday	9.30am – 3pm
Friday	9.30am – 2.30pm
Saturday	9.00am and 10.30am

No burial can take place other than between these times, except with special permission of BCP Council.

For any burials booked outside these times an additional charge will be levied.

Burials will not be permitted to take place on Sundays, Christmas Day, Good Friday or Public Holidays.

3.2 Where burials are allowed

Burials will only be allowed in the ground laid out for burial as shown on the plan of the Cemetery.

3.3 Selection of grave space

The selection of any grave space for either an immediate interment or a reserved grave shall be subject to the approval of BCP Bereavement Care and shall be consistent with BCP Bereavement Care's general plan for the Cemetery, although the wishes of applicants will be met so far as is practicable.

3.4 Booking of burials

The initial booking will be accepted by telephone [or online through the funeral director's online diary portal]. The Notice of Burial Form must be submitted to the Bereavement Care Office at least 3 clear working days prior to the burial taking place. The only exception to this rule will be the consideration of immediate burial for religious reasons where it is practical to facilitate.

3.5 Notice of burial

All written Notices of Burial shall be delivered to the BCP Bereavement Care office during normal office hours and at least three working days prior to the burial taking place.

All Notices of Burial must be given in writing on the printed forms supplied by BCP Bereavement Care applicable at the time and the requirements must be clearly and completely stated on the form.

A Notice of Burial must contain the following particulars:

- The forename and surname, last place of resident, age, date and place of death of the person to be buried;
- The day, date and time of the intended burial;
- The Cemetery in which the burial is to take place and the grave number;
- The name and address of the person who is to officiate;
- The name and address of the funeral director, if one has been appointed;
- The name, address and signature of the legally registered grave owner(s) thus providing their consent for the burial to take place;
- The length, width and depth of the coffin or casket to be used for the burial, and the shape of the coffin;
- The name, address and contact telephone number/email of the applicant for burial and relationship to the person being buried.

BCP Bereavement Care will not accept responsibility for the accuracy of the details contained within the Notice of Burial.

3.6 Notice of burial of cremated remains

These Rules and Regulations shall apply to the intended burial of cremated remains in the Cemetery in the same way as they apply to burials.

Cremated remains are not permitted to be scattered on top of any purchased or unpurchased grave or within any part of the Cemetery.

3.7 Certificate of disposal

The Certificate of Disposal issued by the Registrar of Births and Deaths or an Order of the Coroner must be delivered to the Bereavement Care Office at least 72 hours prior to the burial being allowed to take place. A written declaration made on the official form by the person arranging the funeral, that the certificate of the Registrar or an Order of the Coroner has been issued in respect of the deceased, can be provided subject to acceptance from the Registrar for Burials in order to permit the burial to proceed notwithstanding that the Certificate or Order has not been previously delivered to the Office. In the case of a still-born child, the Certificate or Order must be delivered to the Bereavement Care Office prior to the burial taking place. A written declaration will not be accepted in this instance.

3.8 Payment of burial fees

All appropriate fees for burial shall be paid in full to BCP Council at the time the Notice of Burial is submitted.

The only exception to this rule will be for those 'arrangers' having a pre-approved account arrangement where the burial fee will be invoiced within 7 working days following the date on which the burial has taken place. Payment in these circumstances can be made by the arranger 30 days following receipt of a formal invoice by a BACS transfer, cheque or credit/debit card. Cash payment on invoice or transaction amounts of more than £xxx will not be accepted.

3.9 Resident and non-resident burial fees

Double fees will be charged for the interment of persons not normally resident within BCP Council and will apply to all other fees connected with the grave, with the exception of grave maintenance fees. Double fees will apply where any person who did not have their primary residency within Bournemouth, Christchurch or Poole in the 5 years leading to their death.

3.10 Timings of burials

The time of the burial will mean the time when the funeral cortege shall arrive at the Cemetery Chapel (if booked) or the graveside for bookings where the coffin or casket is to be taken directly to the grave. No burial shall take place within 60 minutes of the time for which a separate burial booking has been arranged in any one of the Cemeteries.

3.11 Exclusive right of burial (grave purchase)

When purchasing the Exclusive Right of Burial in a grave space a Deed of Grant will be issued by the Bereavement Care Office to the person by whom the Exclusive Right of Burial is purchased and such person shall be registered by BCP Bereavement Care as the owner of the same. The Deed of Grant will grant the Exclusive Right of Burial in a grave space for a maximum period of 50 years. Wherever possible the Deed of

Grant should be produced whenever a burial takes place. No grave in which the Exclusive Right of Burial has been purchased shall be opened without the written consent of the registered holder of the Exclusive Right of Burial or their legal representative.

Only individuals intending to use the grave for intended burial of their family members or friends or a legally appointed Executor can proceed with the purchase of Exclusive Right of Burial. Only single grave purchases will be permitted at any one time. No bulk purchasing of grave spaces will be permitted by individual persons or representatives. Single or bulk purchase of graves by funeral directors/arrangers or religious or non-religious faith group representatives for later allocation to their group members or families they represent will be permitted.

3.12 Prepurchase of grave space

Where identified sufficient grave space is available within the Cemetery the pre-purchase of a new grave will be permitted. Where grave space is at a premium, no pre-purchase will be permitted within the Cemetery with purchases only permitted where burial is anticipated to take place within three weeks of a booking being made and confirmed.

3.13 Reclaimed grave

Reclaimed graves are offered for purchase in all Cemeteries and are subject to the conditions of regulation 2.10 above.

3.14 Rights of ownership

A transferred Rights of Ownership to a grave is only valid if it has been registered and agreed by the Bereavement Care Office. It is advisable that once the grave owner has been buried within the grave, the family or legal next of kin make arrangements for the legal transfer of ownership. This will avoid delays at point of need for burial and further distress being caused to the family. No further burial, burial of cremated remains, additional inscriptions on grave memorials or installation of new grave memorials will be permitted until entitled ownership has been established and a legal transfer of ownership has taken place with the new owner thus providing their written consent.

In cases where the original purchaser is deceased, the new owner must demonstrate entitlement to ownership of the grave by producing:

- A valid Will and Last Testament of the original purchaser;
- Registered Grant of Probate;
- Letters of Administration, or
- In the absence of the above, a completed Statutory Declaration witnessed by a Commissioner of Oaths or a Solicitor registered to do so.

A fee is charged for processing the transferred Rights of Ownership to a grave by BCP Bereavement Care which must be paid at the time the transfer of ownership is executed. All paperwork relating to the transfer

of ownership will be retained by the Bereavement Care Office for the remaining lease period of the originally purchased Exclusive Right of Burial.

3.15 Extension of lease periods

Extension of remaining grave lease periods will be permitted. Extended periods can only be purchased by the registered purchaser or owner of the grave. Extensions will only be permitted up to a maximum of 50 years. For example, if 20 years have expired on the original purchased lease period, then a 'top up' of a maximum of 30 years will be permitted. Fees for the purchase of extended leases will be calculated on the published fee on a pro-rata basis.

3.16 Unpurchased or public graves

Unpurchased graves acquire no rights, all rights being vested in BCP Council. All unpurchased graves will be dug to accommodate two interments which may be of persons unrelated. No memorials are permitted on unpurchased grave spaces.

3.17 Fees and charges

All fees and charges are payable to BCP Council for burials and other Cemetery services and can be obtained by either downloading from the website: www.bcpbereavementcare.co.uk or by emailing the BCP Bereavement Care Office: bereavementcare@bcpcouncil.gov.uk

4 Burial Procedures

4.1 Digging of graves

No grave shall be dug, excavated or back-filled except by persons appointed or employed by BCP Council only.

4.2 Coffin construction and materials

Coffin construction and materials approved by the Funeral Furnishings Manufacturing Association (FFMA) are only permitted for burial within the Cemeteries. In view of the national and international focus being given to climate change and to safeguarding the environment, BCP Council encourage the use of biodegradable coffins which have less impact on the local environment and in some cases a reduced carbon footprint in their manufacture. American-style full caskets are permitted but due to their size requiring a larger burial area than the standard allotted burial space, a double burial fee will be charged. Metal caskets will not be permitted within the Cemetery.

4.3 Number of burials in a grave

A grave space subject to the Exclusive Right of Burial may normally be expected to allow one (single depth), two (double depth) or three (triple depth) burials. However, soil or ground conditions may occasionally dictate otherwise in which case a lesser number of burials will be authorised. BCP Council will not accept liability or responsibility in any way should the number of burials authorised for a grave space be less than the number proposed or intended by the owner at the time of purchase.

4.4 Depth of graves

Graves will be made level with the surrounding ground level and no raised mounds will be permitted. The first burial (with exception of Jewish graves and graves set aside for the burial of cremated remains or children's graves) shall be at a depth of not less than 2700mm (9ft). Subsequent burials shall be at a depth of not more than 2100mm (7ft) and 1500mm (5ft). Successive sets of cremated remains shall be at the same depth as each other to a maximum of 6 sets at each level in a full grave and a maximum of 4 sets in a cremated remains grave. When a grave has reached its capacity on coffin burials, cremated remains may be buried at a depth of 1200mm (4ft). Once cremated remains have been buried at a depth of 1500mm (5ft), no further burial of coffins will be permitted if there is coffin capacity remaining. The coffins in the grave must be separated by means of a layer of earth not less than six inches in thickness with no less than 3ft of earth below the level of any ground adjoining the grave.

Whenever a burial has taken place, except in a vault, the surface shall be covered and grass-seeded unless approved planting is to be undertaken or a memorial is to be installed. BCP Council reserves the right to prune, cut down or dig up and remove any shrubs, plants or flowers at any time, when in their opinion, they have become unsightly, overgrown or necessary for the purpose of allowing the grave to be re-opened to receive a further burial, or to allow access to a nearby grave.

4.5 Officiants

Burials may take place with or without a religious or non-religious service. It is the responsibility of the burial arranger to make any necessary arrangement for a religious or other person authorised to officiate at the burial.

4.6 Disturbance of human remains

Once a person has been buried it is unlawful to remove or disturb the body without lawful authority to do so. When any grave space is re-opened for the purpose of carrying out a further burial, no person shall disturb any human remains buried therein or remove from there any soil.

4.7 Grave re-instatement

When a burial has taken place it will take between six to 12 months for the ground to settle. During this time the grave will be levelled with top soil by BCP Council as and when required and re-seeded upon levelling. Following the back-filling of the grave, BCP Council will undertake a 10-day and 6-month grave check to ensure the grave is in good order prior to any memorial installation that may take place.

4.8 Burials in vaults or brick graves

Following the burial of a body in a vault, BCP Council shall ensure within a period of 2 hours that the coffin be wholly and permanently embedded in and covered with a layer or layers of good cement concrete, not less than 150mm in thickness or to be wholly and permanently enclosed in a separate cell or receptacle constructed of slate or stone flagging not less than 60mm in thickness, properly jointed in cement, or of good brickwork in cement.

Materials for vaults shall be conveyed into the Cemetery under the direction of BCP Council's Cemetery Team in order to reduce risk of damage to Cemetery property and injury to persons in line with the Construction (Design & Management Regulations) 2015.

No new vault or brick grave will be permitted within the Cemetery.

5 Memorials

5.1 Approval of memorials

No memorial shall be installed or placed on any grave within the Cemetery or any inscription or subsequent or additional inscription made without the Council's written approval. All applications must be made to the Council on the appropriate memorial application form. The exact dimensions of the memorial and the proposed inscription is to be provided on the appropriate memorial application form. Any subsequent or additional inscription to an existing memorial must also be submitted for approval to the Council. All memorial applications will incur a memorial fee payable to BCP Council at the time of submission.

Memorial application forms can be obtained from the BCP Bereavement Care Office or downloaded from the BCP Bereavement Care website and once completed will contain details of:

Memorials will only be approved and permitted by BCP Council on purchased graves once a burial has taken place within that grave and with the written consent of the registered grave owner.

The charge for a burial in a public grave does not include any right or privilege other than a right of burial in a public grave selected by the Council. No memorial of any kind will be allowed upon a public grave, and nothing shall be placed upon such a grave without the consent of the Council.

All memorials shall be of natural materials. Any other material will only be permitted with the consent of the Council with the doubling up of burials fees to be levied in such circumstances where a coffin made of metal or other un-natural material is consented to by the Council.

5.2 Installation of approved memorials

The installation of approved memorials will be under the direction of the Council and in accordance with British Standards 8415:2018 and any subsequent changes thereof for the fitting and installation of a memorial on a purchased grave.

Only a stonemason or fitter registered with the British Register of Accredited Memorial Masons (BRAMM) or the National Association of Memorial Masons (NAMM) will be permitted to install a memorial within the Cemetery.

Once approved, and payment thereof received, a permit for installation will be issued by the Council to the appointed stonemason or fitter. Any memorial installed or any work executed without such permission or which does not fully comply with the terms of the permit may be removed by the Council at its discretion and at the expense of the grave owner.

5.3 Inscribed names

The name as given on the Registrar's Certificate of Disposal or Coroner's Order for Burial will be permitted on the proposed memorial. Any other name by which a deceased person was generally known may be allowed in parenthesis subject to all applications being approved by the Council. Crazy paving or wooden post fencing will not be used as kerbing for graves unless enclosed fully by appropriate kerbing in place.

5.5 Lawn graves

Within each Cemetery is a designated Lawned section. It is an absolute requirement that no item other than a single approved memorial shall be placed upon the actual grave space located within a lawned section of the Cemetery. Additional items such as bedding plants, glass vases, flower bases, marble fonts, wooden crosses, kerbing or any other item that may denote the grave boundary or restrict the maintenance of the area will not be permitted. If any such item is placed upon the grave it will be removed by the Council without notice.

5.6 Landings

Landings will not be permitted above ground level on any grave within the Cemetery.

5.7 Markings on memorials

To comply with British Standards 8415:2018 all new memorials shall have a clearly indicated line across the front or back indicating the depth the memorial should be placed below the surface of the ground and is to

include the grave number (and section) clearly and conspicuously engraved upon the base. All new memorials must have the stonemason's name clearly inscribed on it in letters no larger than ¾" in height at the base on the reverse of the memorial. Such markings are to be clearly shown on the drawings submitted in support of the memorial application form. The height of all memorials shall be taken from ground level.

5.8 Removal of memorials

No memorial shall be removed from any grave in the Cemetery without the permission of the registered owner or their legal representative and without BCP Council being informed as to the removal. When memorials are removed from graves to enable further burials to take place or additional inscriptions to be added, such memorials and their foundations shall be removed and re-installed by the appointed stonemason or fixer and at the expense of the registered owner of the grave. Re-installation of the memorial on the grave shall take place between six and twelve months from the date of removal.

5.9 Condition of memorials

It is the responsibility of the registered grave owner or their legal representative to ensure their grave and memorial is kept in good repair. BCP Council reserves the right to remove any memorials which shall have become in a dilapidated or unsafe condition.

Any memorial subject to the terms and conditions of a BCP memorial cleaning contract will be kept clean by BCP Council on the payment of the appropriate annual price for the agreed fixed period of years.

Any external party appointed by the registered owner or their legal representative to clean a memorial in place must ensure that they have the appropriate public liability insurance in place and comply with the requirements of Control of Substances Hazardous to Health (COSHH) when it comes to natural stone cleaning chemicals. BCP Council will not accept any liability for any damage caused or injury sustained by privately appointed individuals while carrying out memorial cleaning work.

Repair or replacement work will be at the cost of the registered owner or their legal representative in circumstances where memorial damage is sustained in these circumstances. Any memorial rendered unsafe will be removed by BCP Council.

5.13 Working on memorials in the cemetery

All memorials must be completely worked before they are admitted to the Cemetery for installation. No work of any kind other than fixing, lettering and cleaning shall be allowed in the grounds of the Cemetery. Materials for memorials shall be conveyed into the Cemetery in such a manner, under the direction of the Cemetery Team, as to avoid injury to property and personnel as per the requirements of xxxx. The work of fixing or removing memorials must be carried out between the hours of 9am and 3pm weekdays only and shall not interfere with the work of the Cemetery Team or any funeral or burial service that may be taking place.

5.14 Expiration of exclusive right of burial

On the expiration of the agreed lease period on the grave, BCP Council may remove and dispose of any memorial installed on the grave subject to BCP Council:

- Giving notice in writing of the proposed removal to the last known person entitled to the grant of right of burial by letter sent to the last known address of such person;
