

Appendix 2 - Consultation Outcome and Recommendations
Highcliffe School Area Parking Restriction Proposals 2023 (P35 2023)
Consultation dates: 17 February – 11 March 2023

Item No.	Location/ Description	BCP Ward	Summary of responses (Number received & summary of points raised)	Decision
1.	Area Wide: <ul style="list-style-type: none"> Field Way Forest Way Parkside Smugglers Lane North Smugglers Lane South Woodfield Gardens 	Highcliffe & Walkford	Total number of responses = 35 <ul style="list-style-type: none"> Support = 25 Object = 10 Support includes Highcliffe School and Highcliffe & Walkford Parish Council	Area wide recommendation - Implement scheme as advertised Reasons: <ul style="list-style-type: none"> The proposed restrictions will reduce unsafe and obstructive parking, enabling improved visibility/ manoeuvrability on the roads The restrictions are to enable improved visibility and safer passage of all traffic at the school car park entrance and exit points and at the corners in Parkside, Field Way and Woodfield Gardens The restrictions will improve safer routes to school in the vicinity of the school to encourage increased cycling and walking by pupils and staff The restrictions will encourage staff to utilise the available off-street parking within the school Increased Disabled Bay provision improves access for blue badge holders The restrictions improve access for school buses in using Woodfield Gardens too and from the school
OBJECTIONS				
2.	Area Wide	Highcliffe & Walkford	This is just going to push the issue onto other neighbouring roads.	Alternative routes and additional restrictions outside the scope of this consultation.
3.	Area Wide	Highcliffe & Walkford	There is no traffic issues on this road during school times.	Issues were raised by local residents, ward councillors and the school for BCP to investigate
4.	Area Wide	Highcliffe & Walkford	These proposals are going to make it hard for parents picking up their kids from schools and will even make it hard for students to be able to park around the area.	There are still many available areas for dropping off and picking up in the area.
5.	Area Wide	Highcliffe & Walkford	Never had issues with the cars waiting outside my house.	Issues were raised by local residents, ward councillors and the school for BCP to investigate
6.	Area Wide	Highcliffe & Walkford	The school rush only happens around 10-20 minutes in the morning and for about 15 minutes in the afternoon.	Restrictions are timed to correspond with school days
7.	Area Wide	Highcliffe & Walkford	If the proposed changes are made the whole of Forest Way will be like this and school runs will be even more chaotic. It is unsafe for elderly and disabled people in mobility scooters, people with children in buggies and difficult for all pedestrians.	It is expected that the school run drop off and pick up will be spread to further streets and not be concentrated outside the school.
8.	Area Wide	Highcliffe & Walkford	The proposed traffic restrictions will not stop the whole of Forest Way (from the Smugglers North junction to the school) from clogging up with cars during school drop off and pick up.	It is hoped that the proposals will encourage more cycling and walking by making the area outside the school safer for pupils or encourage drop off further away.
SUGGESTIONS				
9.	Area Wide	Highcliffe & Walkford	Why were the surrounding roads, such as Forest Way and Forest Close not included in the scheme	These roads were outside the scope of the project however following implementation the impacts will be monitored. It must also be noted that Forest Way is wider and therefore there is less impact of flow and safety for pupils and residents.
10.	Area Wide	Highcliffe & Walkford	The proposals published recently by BCP Council to restrict parking around Highcliffe School do not appear to solve any issues	The issues were raised by local residents, ward councillors and the school and it is expected that the scheme will improve safety in the vicinity of the school
11.	Area Wide	Highcliffe & Walkford	Any scheme put in place must be policed or it is doomed to failure	Enforcement will be carried out once the scheme has been installed, along with key messages given out locally by the school to parents and pupils.
