APPENDIX 9

Response 1

Good morning Kasia,

Thank you for your email, explaing your intentions. I work in hospitaly my self amd I know what impact nose can cause in residential area.

I have raised appeal against <u>00:00- 2am</u> opening and pub or bar as is not needed in this residential area.

You are stating that this will be a restaurant and there will be no live music in the venue to disturb the residents and closing time will be at 23:00.

In this case there would be no problem from my part as long as it stands.

Thanks again for you email and I wishing you all the best with you bussines.

Kind regards, Nertil Bala
