

A young girl with blonde hair, wearing a blue patterned shirt and black pants, stands on a wooden play structure. The structure has a wide, grey slide that curves downwards. The play structure is made of light-colored wood and has green-painted vertical posts. It is situated in a forest with many tall, thin trees and green foliage. The ground is covered with brown mulch. The scene is brightly lit, suggesting a sunny day.

BCP Council **Plan for Play**

Improvement Plan

bcpcouncil.gov.uk

Plan for Play Improvement Plan

The summary of the investment required is based on the evidence base information. This takes in to account the following data that has been assessed by officers to bring forward the investment needs and form the overall improvement plan.

- ✓ Annual independent inspections, identifying individual faults on items, life span, health and safety issues and other safety information.
- ✓ 2023 Site audits, undertaken by various officers across different teams working on green spaces, that assessed the overall quality of the whole site, access, inclusivity, landscaping and proximity of other facilities.
- ✓ Demographic and census information, eg population of the ward, number of children in the ward
- ✓ Walk times to the different types of play spaces
- ✓ The presence of access features already in situ help to inform prioritisation

The Improvement Plan sets out the needs of our play spaces and is an evidence-led approach, rather than working to any specific funding that is available. This approach provides a strategic and holistic view of all assets and facilities.

Regardless of what funding is available, the improvements and investment in play has been prioritised.

An assessment was made for each space and is categorised below. These categories have been attributed baseline indicative costs along with some site-specific costings to generate the figures below.

Defect repairs would typically be funded by revenue funding. (current spending controls owing to Council-wide financial pressures does not allow or cover the repairs needed)

New Site where a location has been highlighted to improve the play offer in an area.

Refurbishments are a mid-range intervention required with some equipment to be replaced; others to be improved eg, new swing seats or multi-unit.

Replacement where sites are beyond end of life and in need of redesign and full replacement. There could also be opportunities to close multiple sites in a geographic area and provide a single new site nearby.

Repurposing space owing to the number of defects, play value, location or close proximity to other sites in better condition, or a better location is available; means that play equipment will be removed.

The phasing of improvements is determined by the evidence base and scoring attributed to each site and element of work. See Appendix 8 for the full list and supporting information.

Indicative costs table

Indicative costs are based on current market value of full replacement, refurbishments of play areas based on play space typology and size of site. These have been used to form a programme budget and set out the funding requirements.

Costings	Doorstep & Play on the Way	Local Play Space	Neighbourhood Play Space	Destination Play Space
New Site / Full replacement	£25,000	£100,000	£140,000	£180,000
Disposal of existing equipment and surfacing	£10,000	£20,000	£20,000	£30,000
New Safety Surfacing	£10,000	£30,000	£40,000	£50,000
Total	£45,000	£150,000	£200,000	£260,000

Refurbishment	£25,000	£80,000	£100,000	£140,000
Disposal of existing equipment and surfacing	£15,000	£15,000	£20,000	£30,000
New Safety Surfacing	£10,000	£20,000	£30,000	£40,000
Total	£50,000	£115,000	£150,000	£210,000

Costings	Skate & Wheeled Standard*	Skate Park/Wheeled Activity Destination*	MUGA
New Site / Full replacement	£230,000	£300,000-500,000	£70,000
Disposal of existing equipment and surfacing	£20,000	£20,000	£20,000
New Safety Surfacing	£0	£0	£70,000
Total	£250,000	350,000-500,000	£160,000

*Skate and wheeled costs are on a site-by-site basis for refurbishment.

Total investment required

Phase of Work	Work Type	No. of sites	Total Costs
Phase 1	Defect Repairs	122	£435,250
	New Sites	1	£200,000
	Replacements	7	£1,375,000
	Refurbishments	10	£1,375,000
	Repurpose & Review Ownership	14	£150,000
	Resourcing		£203,406
	Contingency/to be allocated		£200,000
	Subtotal	154	£3,938,656
Remaining Phases	New Sites	1	£200,000
	Replacements	13	£2,320,000
	Refurbishments	31	£3,425,000
	Repurpose	18	£270,000
	Resourcing		£668,008
	Subtotal	63	£6,883,006
Total investment required			£10,821,662

Project and Programme Resources

To deliver this programme of improvements will require a project team to deliver public consultation, partnership working and all necessary procurement and legal contracting work for the physical improvements.

Existing internal resources will be utilised where possible from the Greenspace Development Team and through play inspectors, play supervisor and the internal works teams.

The senior responsible officer for the programme will be the Strategic lead for green space, they will oversee the project team comprised of:

- A programme manager will have responsibility for the delivery of the improvement plan, with technical support from:
- a landscape architect
- an engagement officer
- a project support officer

This team is necessary to deliver the rapid and significant improvements on a time scale to prevent future decline and support the need to improve play spaces.

Levels of resourcing will be reviewed and adjusted depending on levels of funding and agreement on the programme delivery. Costs below are indicative at this stage and will be subject to change following recruitment.

A clear programme of works, governance structure with clear transparency through the timeline of delivery will be developed and reported to a steering group, or similar, once there is an approved budget.

Resource	Year 1 £ pa	Year 2 £ pa	Year 3 £ pa
Plan for Play Programme Lead Landscape Architect Engagement Officer. Project support Officer			
Sub-total staff funding	£168,406	£172,210	£175,796
Site surveys (topographic/ground investigation)	£25,000	£25,000	£25,000
Consultation materials (print, design, posters etc)	£10,000	£10,000	£10,000
Sub-total resources	£35,000	£35,000	£35,000
Total	£203,406	£207,210	£210,796

All sites Improvement List

All sites will receive defect repairs where funding allows.

Recommended New Sites

ID	Address	Ward	Site Type	Typology	Age Suitability	Recommendation	Cost	Phase
P1	Landford Way Bournemouth BH8 0NZ	Muscliff & Strouden Park	Equipped Play Area	Neighbourhood Play Space	Toddler to Junior	New Site	£200,000	1
P2	Tuckton Tea Gdns Wick Lane Bournemouth BH6 4LB	East Southbourne & Tuckton	Equipped Play Area	Neighbourhood Play Space	Toddler to Junior	New Site	£200,000	Tbc once funding in place

Phase 1

The first phase has been prioritised to start the programme and will include the delivery of all the defect repairs ensuring immediate improvements to play areas and equipment. This will keep play equipment in use or bring it back into use.

Phase 1 will include priority sites to be refurbished, replaced or repurposed. These sites have been determined through the evidence based compiled through our internal inspections, third party annual inspections and life expectancy reports of the site, the in-house play space review and location.

Defect Repairs

- Visual, Maintenance and Annual inspections have identified Play Spaces where equipment and servicing repairs could be made to which will keep sites open
- 120 identified play spaces would be immediately brought back into better condition
- Cost £266,410

New Site

and the site on Landford Way will offer a larger Neighbourhood Play space to replace several sites clustered together enabling fewer but better play spaces, the current sites offer poor play value and have limited life expectancy.

- 1 New play space
- Cost £200,000

Replacement

- 7 full play space replacements
- Cost £1,375,000

Refurbishments

- 10 priority play space refurbishments
- Cost £1,375.000

Repurposing

- Repurpose and review ownership of 14 play spaces that have poor levels of play value, minimal equipment in situ and are at end of life (see Appendix 3)
- Cost £150,000.

Later phases will be subject to progress on the above works and further fund-raising. This also allows time for review of governance, delivery, public engagement and value for money. They are set out below as indicative information at this stage.
