Background

1. Bournemouth, Christchurch and Poole (BCP) Council is required to calculate its tax base in accordance with the Local Authorities (Calculation of Tax Base) Regulations

1992, as amended, and provide this information to the Dorset Police & Crime Commissioner, the Dorset & Wiltshire Fire & Rescue Authority as well as the relevant parish, town and neighbourhood councils and charter trustees in the BCP Council area.

Calculation of the council tax base

- 2. Under the Local Government Finance Act 1992 and accompanying regulations, detailed procedures exist for calculating the tax base which will be used for calculating the levels of council tax charged to residents. The tax base for BCP Council is expressed as the number of band D equivalent properties and will be used to calculate BCP Council's element of council tax as well as the council tax charged by other preceptors.
- 3. The detailed calculation of the BCP Council tax base is provided in Appendix A.
- 4. The calculations include estimated changes in the Valuation Office's Valuation List that will take place during 2025/26 by reference to the following:
 - a) Provision for successful appeals
 - b) Provision for exempt properties
 - c) Changes in the number of properties (demolitions and new additions)
 - d) Cost of local council tax support scheme (LCTSS)
 - e) Estimated single person and other discounts
 - f) Estimated collection rate
- 5. The total estimated tax base for BCP Council has increased from 146,342 in 2024/25 to 151,574.2 in 2025/26.
- 6. The increase is down to the implementation of a second homes premium and additional properties being built in the conurbation. The weighted average collection rate is estimated at 98.5% (98.5% 2024/25).
- 7. The second homes premium has added an additional 5,110.8 band D equivalents. There has also been a reduction in long term empty properties reducing from 1,444 properties to 826. Although a positive to get more properties back into occupancy this means the premium being charged has reduced.
- 8. In addition to calculating the tax base for BCP Council, a separate tax base must be calculated for each part of the council's areas to which a special item of expenditure relates. Parish, town and neighbourhood councils and charter trustee precepts are all treated as special items for these purposes and their precepts are charged only over the tax base for the relevant area. This is provided in Appendix B to this report.
- 9. The council tax requirement for 2025/26, which will be approved by BCP Council in February 2025, will be divided by the calculated tax base to arrive at the charge for a band.

Options Appraisal

10. The council can make differing assumptions regarding the estimated additions, deletions, exempt properties, discounts, cost of LCTSS and the collection rate and their impact on the tax base. However, these have been set at a level based on historical trends and with due regard to the current economic environment in order to ensure as far as possible that a deficit does not occur on the collection fund.

Summary of financial implications

11. As set out in the body of this report.

Summary of legal implications

- 12. The calculation and approval of the tax base is a crucial step in the council being able to set a legal balanced budget for 2025/26.
- 13. The council must set its tax base in accordance with the Local Authorities (Calculation of Tax Base) Regulations 1992, as amended, and inform other preceptors of their relevant tax base.
