#### Fulfilled Lives - Shaping our Adult Social Care Strategy

We are preparing our draft Adult Social Care Strategy 2025-28 'Supporting People to Live a Fulfilled Life'. This sets out our direction over the next four years, where we will continuously develop the services we provide.

Bournemouth, Christchurch and Poole (BCP) Council's Adult Social Care service support vulnerable young people and adults, people with disabilities, their carers, and a growing number of older people across our communities.

We would really appreciate your opinions and feedback on our proposed vision, areas of focus and ambitions, so please take the time to give your views.

We have been working with [Social Care Future](#) to develop our vision for adult social care and we want to support people to achieve a fulfilled life, in the way that they choose and, in a place where they feel safe.

Our areas for focus have been widely influenced by national adult social care changes. Evidence from our quality improvement work has highlighted the areas where we need to do things differently. We have also engaged with residents, stakeholders and our staff to understand their views.

To achieve our ambitions, we will work in collaboration with partner organisations including health, housing, the voluntary and community sector and our independent care providers, as well as people and carers who currently use services, their families and communities.

## 3. Meetings

DOTs Disability held two meetings to get in depth views from disabled people from across the impairment groups with various experiences of and/or access to Adult Social Care. A separate report has been prepared by DOTs Disability.

The strategy was discussed at a People First Forum meeting with people with learning disabilities in January. The group completed some questions from the Easy Read Survey using show cards. The feedback from the People First Forum has been combined with the Easy Survey results in a separate report.

#### **4. Communication**

The consultation was promoted widely through a variety of channels including council's e-newsletters, social media channels, posters and information in all libraries, staff newsletters, Councillors and local media coverage.

Adult social care colleagues promoted the consultation and shared resources to Integrated Care System colleagues, community and voluntary sector partners, people who use adult social care services, members of the public as well as Adult Social Care networks and groups.

#### **5. Drop ins**

To promote the consultation and offer people the opportunity to speak to adult social care colleagues, drop-in sessions were held at 12 BCP Council libraries and Tricuro day centres. A stand was also set up at two Covid drop ins at the Spire in Poole in December 2024, where people had an opportunity to talk to staff about the consultation.

#### **6. The Survey**

The survey asked for respondents views about the Vision, the Areas of Focus and Ambitions. Personal questions were also asked to understand the profile of respondents and its representativeness.

The survey included several open-ended questions which allowed respondents to provide free-text responses to explain their answers. All free-text responses were read and thematically analysed. Any proposed changes to the strategy have been reported in the survey report. The full set of comments has been provided to Adult Social Care to use in the development of the Strategy and Action Plan, as well as any lesson learned for service planning and delivery.
