O1 Key developments impacting our audit approach

Local Audit Reform

External factors

Proposals for an overhaul of the local audit system

On 18 December 2024, the Minister of State for Local Government and English Devolution, Jim McMahon OBE, wrote to local authority leaders and local audit firms to announce the launch of a strategy to overhaul the local audit system in England. The proposals were also laid in Parliament via a Written Ministerial Statement.

The government's strategy paper sets out its intention to streamline and simplify the local audit system, bringing as many audit functions as possible into one place and also offering insights drawn from audits. A new Local Audit Office will be established, with responsibilities for:

- Coordinating the system including leading the local audit system and championing auditors' statutory reporting powers;
- · Contract management, procurement, commissioning and appointment of auditors to all eligible bodies;
- · Setting the Code of Audit Practice;
- · Oversight of the quality regulatory framework (inspection, enforcement and supervision) and professional bodies;
- Reporting, insights and guidance including the collation of reports made by auditors, national insights of local audit issues and guidance on the eligibility of auditors.

The Minister also advised that, building on the recommendations of Redmond, Kingman and others, the government will ensure the core underpinnings of the local audit system are fit for purpose. The strategy therefore includes a range of other measures, including:

- setting out the vision and key principles for the local audit system;
- committing to a review of the purpose and users of local accounts and audit and ensuring local accounts are fit for purpose, proportionate and relevant to account users;
- enhancing capacity and capability in the sector;
- · strengthening relationships at all levels between local bodies and auditors to aid early warning system; and
- · increased focus on the support auditors and local bodies need to rebuild assurance following the clearing of the local audit backlog.

Our Response

Grant Thornton welcomes the proposals, which we believe are much needed, and are essential to restore trust and credibility to the sector. For our part, we are proud to have signed 83% of our 2022/23 local government audit opinions without having to apply the local authority backstop. This compares with an average of less than 30% sign off for other firms in the market. We will be keen to work with the MHCLG, with existing sector leaders and with the Local Audit Office as it is established to support a smooth transition to the new arrangements.

Key developments impacting our audit approach

National Position

Local governments face many challenges, the pandemic along with the cost of living crisis has left local governments with economic, social, and health challenges to address:

Staffing: A key challenge facing councils in maintaining service sustainability is the growing difficulties in relation to workforce recruitment and retention. Councils struggle to attract and retain qualified staff, especially younger talent. Many councils have outdated recruitment processes and are heavily reliant on agency staff.

Climate change: As the impacts of climate change become increasingly evident, local government plays a pivotal role in mitigating and adapting to these changes. The UK's targets for achieving net zero carbon emissions and local authority pledges must align into cohesive policies with common goals. This includes ongoing local economy investment in renewable energy, promoting sustainable transportation and implementing measures to enhance resilience against extreme weather events.

Housing crisis: The shortage of affordable housing continues to be an issue. There aren't enough social rented homes to meet demand and it's difficult to find land for new housing developments. New requirements around net zero and other environmental considerations make it more complex to get planning permission. Local authorities therefore face the challenge of providing adequate housing while balancing environmental sustainability and statutory planning requirements.

Funding: Local governments face many challenges in securing funding, including declining grant income, slow tax revenue growth, and rising demand for services. These challenges can make it difficult for local government to balance their budgets, assess their revenue base, enforce taxes, and prevent tax evasion. Social care costs, maintaining aging infrastructure, SEND and homelessness are driving up council spending and cuts to discretionary services impact local communities. Strained budgets are making it challenging to fund essential services, infrastructure projects and the ongoing stream of section 114 notices will not come as a surprise this year.

Digital Transformation: The fast pace of technological advancement poses both opportunities and challenges for local government. The adoption of digital tools and platforms is crucial for improving service delivery, enhancing communication and streamlining administrative processes. However, many communities still lack access or ability to navigate essential technology which creates a digital divide. Local government needs to ensure inclusivity in its digital strategies, addressing disparities and ensuring all residents can benefit from the opportunities technology offers.

Cybersecurity: Local government needs to protect against malware and ransomware attacks. They also need to navigate central government policy shifts and constraints. With increased reliance on digital platforms, they become more vulnerable to cyber threats. Safeguarding sensitive data and ensuring the integrity of critical systems are paramount and local authorities must invest in robust cybersecurity measures, employee training and contingency plans to protect themselves.

Our Response

Building and maintaining public trust is arguably the cornerstone of effective governance. Local government must prioritise transparency, open communication and meaningful public engagement to foster positivity within communities.

Despite councils' best efforts, financial pressures are affecting the scale, range and quality of council services provided to local residents. The clearest evidence of this is that councils' service spending is increasingly focused on adult and children's social care, SEND and homelessness. Ultimately spending is increasingly concentrated on fewer people, so councils are less able to support local and national agendas on key issues such as housing, economic growth, and climate change

Sound strategic financial management, collaboration with other levels of government and exploring alternative funding sources are vital for local authorities to overcome financial constraints and deliver quality services.

Our value for money audit work continues to identify significant weaknesses in all criteria of the Code of Audit Practice. This shows that local authorities are facing increasing pressure to provide services while managing change and reducing costs. We understand that the environment in which our audited bodies operate is dynamic and challenging and this understanding allows us to have insightful conversations and adapt our approach to delivering our audit work accordingly.

We know the difficulties and challenges faced within our Local Authority bodies and know there is a focus on improving quality and reducing costs. We will work with you as you strive to deliver these aims.

Key developments impacting our audit approach

Our commitments

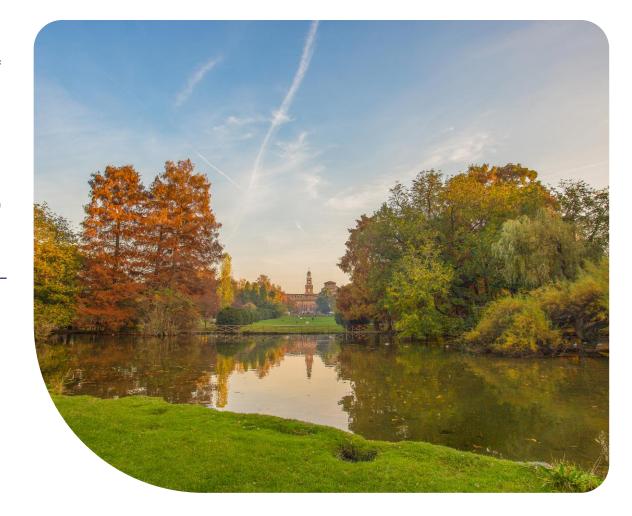

- As a firm, we are absolutely committed to audit quality and financial reporting in local government.
 Our proposed work and fee, as set out further in this Audit Plan, has been agreed with the Director of Finance.
- To ensure close work with audited bodies and an efficient audit process, our preference as a firm is either for our UK based staff to work on site with you and your staff or to develop a hybrid approach of on-site and remote working.
- We would like to offer a formal meeting with the Chief Executive twice a year, and with the Director of Finance quarterly as part of our commitment to keep you fully informed on the progress of the audit.
- At an appropriate point within the audit, we would also like to meet informally with the Chair of your Audit Committee, to brief them on the status and progress of the audit work to date.
- Our Value for Money work will continue to consider the arrangements in place for you to secure economy, efficiency and effectiveness in the use of your resources.
- We will continue to provide you and your Audit Committee with sector updates providing our insight on issues from a range of sources via our Audit Committee updates.
- We hold annual financial reporting workshops for our audited bodies to access the latest technical
 guidance and interpretation, discuss issues with our experts and create networking links with other
 clients to support consistent and accurate financial reporting across the sector.

Local Government National Context – The Backstop

On 30 September 2024, the Accounts and Audit (Amendment) Regulations 2024 came into force. This legislation introduced a series of backstop dates for local authority audits. These Regulations required audited financial statements to be published by the following dates:

- for years ended 31 March 2023 and earlier by 13 December 2024;
- for years ended 31 March 2024 by 28 February 2025; and
- for years ended 31 March 2025 by 27 February 2026.

The Statutory Instrument is supported by the National Audit Office's (NAO) new Code of Audit Practice 2024. The backstop dates were introduced with the purpose of clearing the backlog of historic financial statements and enable to the reset of local audit. Where audit work is not complete, this will give rise to a disclaimer of opinion. This means the auditor has not been able to form an opinion on the financial statements

IFRS 16 Leases

Summary

IFRS 16 Leases is now mandatory for all Local Government (LG) bodies from 1 April 2024. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and replaces IAS 17. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

Introduction

IFRS 16 updates the definition of a lease to:

"a contract, or part of a contract, that conveys the right to use an
asset (the underlying asset) for a period of time in exchange for
consideration." In the public sector the definition of a lease is
expanded to include arrangements with nil consideration.

This means that arrangements for the use of assets for little or no consideration (sometimes referred to as peppercorn rentals) are now included within the definition of a lease.

IFRS 16 requires all leases to be accounted for 'on balance sheet' by the lessee (subject to the exemptions below), a major change from the requirements of IAS 17 in respect of operating leases.

There are however the following exceptions:

- leases of low value assets (optional for LG)
- short-term leases (less than 12 months).

Lessor accounting is substantially unchanged leading to asymmetry of approach for some leases (operating). However, if an LG body is an intermediary lessor, there is a change in that the judgement, as to whether the lease out is an operating or finance lease, is made with reference to the right of use asset rather than the underlying asset. The principles of IFRS 16 will also apply to the accounting for PFI assets and liabilities.

Systems and processes

We believe that most LG Bodies will need to reflect the effect of IFRS 16 changes in the following areas:

- · accounting policies and disclosures
- application of judgment and estimation
- related internal controls that will require updating, if not overhauling, to reflect changes in accounting policies and processes
- systems to capture the process and maintain new lease data and for ongoing maintenance
- accounting for what were operating leases
- identification of peppercorn rentals and recognising these as leases under IFRS 16 as appropriate

Planning enquiries

As part of our planning risk assessment procedures we inquired with management to understand the processes undertaken and the likely impact of IFRS 16 for 2024-25. The work to finalise the Council's IFRS 16 position was still in progress at the planning stage of the audit.

The Backstop

Local Government National Context – The Backstop

On 30 September 2024, the Accounts and Audit (Amendment) Regulations 2024 came into force. This legislation introduced a series of backstop dates for local authority audits. These Regulations required audited financial statements to be published by the following dates:

- for years ended 31 March 2023 and earlier by 13 December 2024;
 and
- for years ended 31 March 2024 by 28 February 2025; and
- for years ended 31 March 2025 by 27 February 2026.

The Statutory Instrument is supported by the National Audit Office's (NAO) new Code of Audit Practice 2024. The backstop dates were introduced with the purpose of clearing the backlog of historic financial statements and enable to the reset of local audit. Where audit work is not complete, this will give rise to a disclaimer of opinion. This means the auditor has not been able to form an opinion on the financial statements.

Local Government National Context - Local Audit Recovery

In the audit report for the year ended 31 March 2024, a disclaimer of opinion was issued due to the backstop. We have been unable to satisfy ourselves over the in-year movements in the net pension liability and property, plant and equipment. This has resulted in uncertainty over the closing Group and Authority balance of property, plant and equipment of £2.030 billion and £1.982 billion respectively as at 31 March 2024. Similarly, we have not been able to obtain assurance over the Group and Authority's closing reserves balance of £1.613 billion and £1.518 billion respectively as at 31 March 2024, also due to the uncertainty over their opening amount.

As are result, we anticipate that for 2024/25:

- we will have limited assurance over the opening balances for 2024/25
- no assurance over the closing reserves balance also due to the uncertainty over their opening amount.

We are in discussion with the NAO and the Financial Reporting Council (FRC) as how we regain assurance. We will work with the Council to rebuild assurance over time.

Our Work

Our initial focus for the audit will be on in-year transactions including income and expenditure, journals, capital accounting, payroll and remuneration and disclosures; and closing balances for 2024/25. Our objective is to begin a pathway to recovery, by providing assurance over the in year 2024/25 transactions and movements, where possible, and those closing balances which can be purely determined in isolation without regard to the opening balance, such as payables and receivables. As guidance is received from the NAO and the FRC, we will formulate a more detailed strategy as to how assurance can be gained on prior years.

02 Introduction and Headlines

Introduction and headlines

Purpose

• This document provides an overview of the planned scope and timing of the statutory audit of Bournemouth, Christchurch and Poole Council ('the Council') for those charged with governance.

Respective responsibilities

 The National Audit Office ('the NAO') has issued the Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Bournemouth, Christchurch and Poole Council. We draw your attention to these documents.

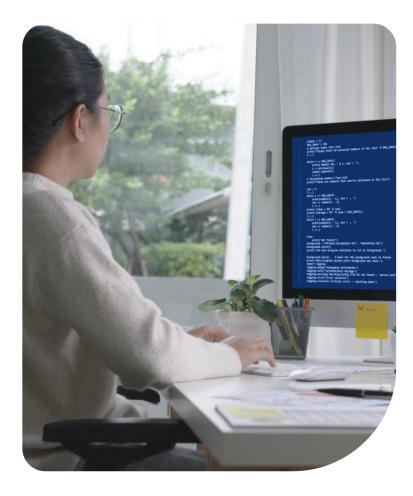

Scope of our Audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit & Governance Committee); and we consider whether there are sufficient arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that arrangements are in place to use resources efficiently in order to maximise the outcomes that can be achieved as defined by the Code of Audit Practice.

The audit of the financial statements does not relieve management or the Audit & Governance Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Introduction and headlines (continued)

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- management override of control
- valuation of land and buildings including council dwellings
- · valuation of investment properties
- · valuation of the Pension Fund net liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Group Audit

The Council is required to prepare group financial statements that consolidate the financial information of Russell-Cotes Art Gallery and Museum Charitable Trust, The Five Parks Charity, the Lower Central Gardens Trust and Tricuro Ltd. Note this is the first year which the Group accounts has incorporated Tricuro Ltd due to the Company being in full ownership of the Council in 2024/24 (previously a Joint Venture with Dorset Council)

Materiality

We have determined planning materiality to be £18.9 million for the Council, which equates to 1.9% of your prior year gross operating costs for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance.

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money has identified the following risks of significant weakness:

 Financial Sustainability – risk of significant weakness in arrangements related to DSG and Council's cash position, as well as unaddressed recommendations.

Audit logistics

Our interim visit commenced in March 2025 and our final visit will take place in June 2025 through to October 2025. Our key deliverables are this Audit Plan, our Audit Findings Report, our Auditor's Report and Auditor's Annual Report.

Our proposed fee for the audit is £469,068 (PY: £489,979) for the Council, subject to the Council delivering a good set of financial statements and working papers and no significant new financial reporting matters arising that require additional time and/or specialist input.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2024) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements

03 Identified risks

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures	
Management override	Council and Group	gement outside the course of business as a	override of controls, in particular journals,	We will:
of controls	Under ISA (UK) 240 there is a non-rebuttable			 evaluate the design effectiveness of management controls over journals
	presumed risk that the risk of management		analyse the journals listing and determine the criteria for selecting high risk unusual journals	
	override of controls is present in all entities.		 test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration 	
			 gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence 	
			 evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions. 	

"In determining significant risks, the auditor may first identify those assessed risks of material misstatement that have been assessed higher on the spectrum of inherent risk to form the basis for considering which risks may be close to the upper end. Being close to the upper end of the spectrum of inherent risk will differ from entity to entity and will not necessarily be the same for an entity period on period. It may depend on the nature and circumstances of the entity for which the risk is being assessed. The determination of which of the assessed risks of material misstatement are close to the upper end of the spectrum of inherent risk, and are therefore significant risks, is a matter of professional judgment, unless the risk is of a type specified to be treated as a significant risk in accordance with the requirements of another ISA (UK)." (ISA (UK) 315).

In making the review of unusual significant transactions "the auditor shall treat identified significant related party transactions outside the entity's normal course of business as giving rise to significant risks." (ISA (UK) 550).

Management should expect engagement teams to challenge them in areas that are complex, significant or highly judgmental which may be the case for accounting estimates, going concern, related parties and similar areas. Management should also expect to provide engagement teams with sufficient evidence to support their judgments and the approach they have adopted for key accounting policies referenced to accounting standards or changes thereto.

Where estimates are used in the preparation of the financial statements management should expect teams to challenge management's assumptions and request evidence to support those assumptions.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
The revenue cycle includes fraudulent transactions	Council and Group Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue	We have identified and completed a risk assessment of all revenue streams for the Council/Group. We have rebutted the presumed risk that revenue may be misstated due to the improper recognition of revenue for all revenue streams. Where we have rebutted the risk of fraud in revenue recognition for revenue streams this is due to the low fraud risk in the nature of the underlying transactions, or immaterial nature of the revenue streams both individually and collectively.	As we have rebutted the risk, we do not consider this to be a significant risk for the Council/Group and standard audit procedures will be carried out. We will keep this rebuttal under review throughout the audit to ensure this judgement remains appropriate.
The expenditure cycle includes fraudulent transactions	Practice Note 10 (PN10) states that as most public bodies are net spending bodies, then the risk of material misstatements due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition. As a result under PN10, there is a requirement to consider the risk that expenditure may be misstated due to the improper recognition of expenditure.	We have identified and completed a risk assessment of all expenditure streams for the Council/Group. We have considered the risk that expenditure may be misstated due to the improper recognition of expenditure for all expenditure streams and concluded that there is not a significant risk. This is due to the low fraud risk in the nature of the underlying nature of the transaction, or immaterial nature of the expenditure streams both individually and collectively.	Was we have rebutted the risk, we do not consider this to be a significant risk for the Council/Group and standard audit procedures will be carried out. We will keep this consideration under review throughout the audit to ensure this judgement remains appropriate.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
Valuation of land and buildings including council dwellings	Council	The Authority revalues its land and buildings on a rolling five-yearly basis. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. Additionally, management will need to ensure the carrying value in the Authority financial statements is not materially different from the current value or the fair value (for surplus assets) at the financial statements date. We therefore identified valuation of land and buildings as a significant risk, which was one of the most significant assessed risks of material misstatement.	 evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work evaluate the competence, capabilities and objectivity of the Council's valuation expert write to the valuer to confirm the basis on which the valuation was carried out challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding test revaluations made during the year to see if they had been input correctly into the Authority's asset register evaluate the assumptions made by management for those assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value at year end engage an auditor's expert to support our response to the valuation of land and buildings.
Valuation of investment properties	Council	The Authority is required to revalue its investment properties at fair value on an annual basis at 31 March. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. We therefore identified valuation of investment property, as a significant risk, which was one of the most significant assessed risks of material misstatement.	 We will: evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work evaluate the competence, capabilities and objectivity of the valuation expert discuss with the valuer the basis on which the valuations were carried out challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding test revaluations made during the year to see if they had been input correctly into the Authority's asset register engage an auditors' expert to support our response to the valuation of investment properties.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
Valuation of the Pension Fund net liability	Council	The Authority's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements. The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions. A small change in the key assumptions (discount rate, inflation rate, salary increase and life expectancy) can have a significant impact on the estimated IAS 19 liability. In particular the discount and inflation rate. We have therefore concluded that there is a significant risk of material misstatement in the IAS 19 estimate due to the assumptions used in their calculation, which was one of the most significant assessed risks of material misstatement.	 We will: update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report review the impact of IFRIC 14 obtain assurances from the auditor of Dorset Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Other risks identified (continued)

Other Risk Ri	Risk relates to	Audit team's assessment	Planned audit procedures
	Council and Group	IFRS 16 requires all leases to be accounted for 'on balance sheet' by the lessee (subject to the exemptions). This is a major change from the requirements of IAS 17 in respect of operating leases and a new accounting policy implemented in 2024-25. Whilst the Council's initial assessment indicated that assets recognised on the balance sheet were unlikely to be material, there remains a risk of completeness of the assessment and disclosure as well as the valuation of the assets.	Our work will include assessing:

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- · We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your financial statements, consider and decide upon any objections received in relation to the financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act);
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act;
 - issuing an advisory notice under section 29 of the Act.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

04 Group Audit

Group audit scope and risk assessment

In accordance with ISA (UK) 600 Revised, as group auditor we are required to obtain sufficient appropriate audit evidence regarding the financial information of the components and the consolidation process to express an opinion on whether the group financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

Component	Risk of material misstatement to the group	Planned audit approach and level of response required under ISA (UK) 600 Revised	Response performed by	Risks identified	Auditor
BCP Council	Yes	Audit of the entire financial information of the component	Group auditor	 Management override of control Valuation of land and buildings including council dwellings Valuation of investment properties Valuation of the Pension Fund net liability 	Grant Thornton UK
Five Parks Charity	Yes	The Charity holds material tangible assets therefore Specific audit procedures will be undertaken on this balance.	Group auditor	 Valuation of land and buildings including council dwellings Management override of control 	N/A, not involving component auditors
The Lower Central Gardens Trust	Yes	The Charity holds material tangible assets therefore Specific audit procedures will be undertaken on this balance.	Group auditor	 Valuation of land and buildings including council dwellings Management override of control 	N/A, not involving component auditors
The Russell Cotes Art Gallery and Museum Charitable Trust	Yes	The Charity holds material heritage assets therefore Specific audit procedures will be undertaken on this balance.	Group auditor	Management override of control	N/A, not involving component auditors
Tricuro Ltd	No	Specific procedures on cost of sales	Component Auditor	Management override of control	Ward Goodman Audit Service Ltd

Key changes within the group

 Tricuro Ltd's become a wholly owned subsidiary of the Council in 2024/25. Previously this had been a joint venture with Dorset Council. Dorset Council sold it's shares in the company to BCP Council in August 2024. Previously, the Council has not included Tricuro Ltd in its group accounts. In 2024/25 the company will be consolidated into the group accounts.

Fraud and litigation

We have not been made aware of any actual or attempted frauds in the year during our planning procedures performed to date. Should any factors arise in relation to fraud risk or actual or attempted fraud we ask that you inform us of this at the earliest possible opportunity.

05 Our approach to materiality

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
01	Determination We have determined planning materiality (financial statement materiality for the planning stage of the audit) based on professional judgement in the context of our knowledge of the Council including consideration of factors such as stakeholder expectations, industry developments, financial stability and reporting requirements for the financial statements	 We determine planning materiality in order to: establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements assist in establishing the scope of our audit engagement and audit tests determine sample sizes and assist in evaluating the effect of known and likely misstatements in the financial statements
02	Other factors An item does not necessarily have to be large to be considered to have a material effect on the financial statements	 An item may be considered to be material by nature when it relates to: instances where greater precision is required
03	Reassessment of materiality Our assessment of materiality is kept under review throughout the audit process	We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality
04	Matters we will report to the Audit Committee Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit & Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.	 We report to the Audit & Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £945k (PY £700k). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit & Governance Committee to assist it in fulfilling its governance responsibilities.

Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements; Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both; and Judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered. (ISA (UK) 320)

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

	Amount (£)	Qualitative factors considered
Materiality for the Council financial statements	£18.900m	We consider the size, complexity and operating environment in
Materiality for the Group financial statements	£19.853 million	determining our materiality. In the prior year, we used a benchmark of 1.45% to calculate materiality. Due to changes in the firm's overall risk assessment of Local Government bodies, we have increased this to 1.9% in 2024/25.
Materiality for specific transactions, balances or disclosures(senior officer remuneration	£0.020 million .	A lower level of materiality was determined for the Senior Officer Remuneration disclosures (per officer) due to the sensitivity and potential public interest in these disclosures.

07 IT audit strategy

IT audit strategy

In accordance with ISA (UK) 315, we are required to obtain an understanding of the IT environment related to all key business processes, identify all risks from the use of IT related to those business process controls judged relevant to our audit and assess the relevant IT general controls (ITGCs) in place to mitigate them. Our audit will include completing an assessment of the design and implementation of ITGCs related to security management; technology acquisition, development and maintenance; and technology infrastructure.

The following IT applications are in scope for IT controls assessment based on the planned financial statement audit approach, we will perform the indicated level of assessment:

IT application	Audit area	Planned level IT audit assessment	
Microsoft Dynamics 360	Financial reporting	Design effectiveness review	
Civica	Accounts Receivable	Roll forward approach, follow up on prior year audit findings, follow up and where required additional testing in relation to privileged users.	
Capita Cloud	Revenue and Benefits	Design effectiveness review	
		 Council migrated from Capita system to Capital Cloud system during the financial year. Review of new system implementation to be undertaken including data migration checks. 	

09 Value for Money Arrangements

Value for Money Arrangements

Approach to Value for Money work for the period ended 31 March 2025

The National Audit Office issued its latest Value for Money guidance to auditors in November 2024. The Code expects auditors to consider whether a body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. Auditors are expected to report any significant weaknesses in the body's arrangements, should they come to their attention. In undertaking their work, auditors are expected to have regard to three specified reporting criteria. These are as set out below:

Financial sustainability

How the body plans and manages its resources to ensure it can continue to deliver its services.

Governance

How the body ensures that it makes informed decisions and properly manages its risks.

Improving economy, efficiency and effectiveness

How the body uses information about its costs and performance to improve the way it manages and delivers its services.

Risks of significant VFM weaknesses

As part of our initial planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed on the table overleaf along with the further procedures we will perform. We will continue to review the body's arrangements and report any further risks of significant weaknesses we identify to those charged with governance. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.

Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements.

Risks of significant weakness in VFM arrangements (continued)

Risk assessment of the Council's VFM arrangements

The Code of Audit Practice 2024 (the Code) sets out that the auditor's work is likely to fall into three broad areas: planning; additional risk-based procedures and evaluation; and reporting. We undertake initial planning work to inform this Audit Plan and the assumptions used to derive our fee. Consideration of prior year significant weaknesses and known areas of risk is a key part of the risk assessment for 2024/25. We will continue to evaluate risks of significant weakness and if further risks are identified, we will report these to those charged with governance. We set out our reported assessment below:

Criteria	2023/24 Aud	litor judgement on arrangements	2024/25 risk assessment	2024/25 risk-based procedures
Financial sustainability	R	Two key recommendations relating to the plan to manage the DSG deficit and the Council's cash position. One significant weakness form the prior year remained outstanding relating to the medium term financial plan	Risk of significant weakness in arrangements related to DSG and Council's cash position, as well unaddressed recommendations.	 We will consider the actions taken to address these key recommendations including: the level of reserves at the 31 March 2025 and the plans in place to replenish these reserves the robustness and assumptions within the MTFP the plans and discussions with the Department for Education to manage the increasing DSG deficit review the arrangements to monitor and manage the Council's cash position consideration of any discussions and correspondence received from the MHCLG.
Governance	А	No significant weaknesses identified.	No significant weakness identified, recommendations from prior year be addressed.	As no risk of significant weakness has been identified, no additional risk-based procedures are specified at this stage. We will undertake sufficient work to document our understanding of your arrangements as required by the Code.
Improving economy, efficiency and effectiveness	R	We raised a key recommendation in respect of the statutory direction in relation to the Council's SEND service received in February 2024 and the 'inadequate' Ofsted rating recevied in December 2021	In December 2021 the Council's children's services were rated as 'inadequate' overall by Ofsted, this was identified as a significant weakness in arrangements in 2023/24. A number of monitoring visits have been carried out and a full inspection in December 2024, when the Council's children's services were rated as 'good' overall.	We will consider the progress taken by the Council and any updates received from the inspectors. We will consider the findings of the December 2024 Ofsted inspection and anticipate that this significant weakness will no longer apply in 2024/25

We will continue our review of your arrangements until we sign the opinion on your financial statements before we issue our auditor's annual report. Should any further risks of significant weakness be identified, we will report this to those charged with governance as soon as practically possible. We report our value for money work in our Auditor's Annual Report. Any significant weaknesses identified once we have completed our work will be reflected in your Auditor's Report and included within our audit opinion.

- G No significant weaknesses in arrangements identified or improvement recommendation made.
- A No significant weaknesses in arrangements identified, but improvement recommendations made.
 - Significant weaknesses in arrangements identified and key recommendations made.

10 Logistics

Logistics

Key elements

- Planning meeting with management to set audit scope
- Planning requirements checklist to management
- Agree timetable and deliverables with management and Audit Committee
- Documentation of design effectiveness of systems and processes
- Follow up of prior year recommendations
- Issue the Audit Plan to management and Audit Committee

Key elements

- Audit teams onsite to complete fieldwork and detailed testing
- Weekly update meetings with management
- Audit of consolidation

Key elements

- Draft Audit Findings issued to management
- Audit Findings meeting with management
- Draft Audit Findings issued to Audit Committee
- Finalise and sign financial statements and audit report

Our team and communications

Grant Thornton core team

Barrie Morris

Engagement Lead/

Key Audit Partner

- Key contact for senior management and Audit Committee
- Overall quality assurance

Katie Whybray

Senior Manager

- Audit team supervision
- Leading on the running of the audit

Adams Azubilla

Audit Senior / In-charge

- Day-to-day point of contact
- Audit fieldwork

Ginette Beal

VFM Specialist

- VFM specialist
- Main contact for VFM reporting

	Service delivery	Audit reporting	Audit progress	Technical support
Formal communications	Annual client service review	 The Audit Plan The Audit Findings Report Audit Opinion Auditor Annual Report Progress and Sector Updated Reports 	Audit planning meetingsAudit clearance meetingsCommunication of issues log	Technical updates
Informal communications	Open channel for discussion		Communication of audit issues as they arise	Notification of up-coming issues

As part of our overall service delivery we may utilise colleagues who are based overseas, primarily in India and the Philippines. Those colleagues work on a fully integrated basis with our team members based in the UK and receive the same training and professional development programmes as our UK based team. They work as part of the engagement team, reporting directly to the Audit Senior and Manager and will interact with you in the same way as our UK based team albeit on a remote basis. Our overseas team members use a remote working platform which is based in the UK. The remote working platform (or Virtual Desktop Interface) does not allow the user to move files from the remote platform to their local desktop meaning all audit related data is retained within the UK.

11 Fees and related matters

Our fee estimate

Our estimate of the audit fees is set out in the table across, along with the fees billed in the prior year

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's Ethical Standard (revised 2024) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

PSAA

Local Government Audit fees are set by PSAA as part of their national procurement exercise. In 2019 PSAA awarded a contract of audit for Bournemouth, Christchurch and Poole Council to begin with effect from 2019/20. The scale fee set out in the PSAA contract for the 2024/25 audit is £469,068.

This contract sets out four contractual stage payments for this fee, with payment based on delivery of specified audit milestones:

- Production of the final auditor's annual report for the previous Audit Year (exception for new clients in 2023/24 only)
- Production of the draft audit planning report to Audited Body
- 50% of planned hours of an audit have been completed
- 75% of planned hours of an audit have been completed

Any variation to the scale fee will be determined by PSAA in accordance with their procedures as set out here $\underline{\text{Fee Variations Overview}} - \underline{\text{PSAA}}$

Updated Auditing Standards

The FRC has issued updated Auditing Standards in respect of Quality Management (ISQM 1 and ISQM 2). It has also issued an updated Standard on quality management for an audit of financial statements (ISA 220). We confirm we will comply with these standards.

Company	Audit Fee for 2023/24	Proposed fee for 2024/25
	(£)	(£)
Bournemouth, Christchurch and Poole Council Audit	489,979	469,068
Total (Exc. VAT)	489,979	469,068

Our fee estimate:

We have set out below our specific assumptions made in arriving at our estimated audit fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements
- maintain adequate business processes and IT controls, supported by an appropriate IT infrastructure and control environment.

Previous year

In 2023/24 the scale fee set by PSAA was £433,289. The actual fee charged for the audit was £489,979.

Please note as the 2022/23 audit opinion was disclaimed due to the imposition of a backstop date, we will need to undertake further audit work in respect of opening balances. We will discuss the practical implications of this with you should this circumstance arise.

12 Independence considerations

Independence considerations (continued)

As part of our assessment of our independence at planning we note the following matters:

Matter	Conclusion	
Relationships with Grant Thornton	We are not aware of any relationships between Grant Thornton and the Council/Group that may reasonably be thought to bear on our integrity, independence and objectivity.	
Relationships and Investments held by individuals	We have not identified any potential issues in respect of personal relationships with the Council/Group or investments in the Council/Group held by individuals.	
Employment of Grant Thornton staff	We are not aware of any former Grant Thornton partners or staff being employed, or holding discussions in respect of employment, by the Council/Group as a director or in a senior management role covering financial, accounting or control related areas.	
Business relationships	We have not identified any business relationships between Grant Thornton and the Council/Group.	
Contingent fees in relation to non-audit services	No contingent fee arrangements are in place for non-audit services provided.	
Gifts and hospitality	We have not identified any gifts or hospitality provided to, or received from, a member of the Group's board, senior management or staff (that would exceed the threshold set in the Ethical Standard).	

We confirm that there are no significant facts or matters that impact on our independence at planning as auditors that we are required or wish to draw to your attention and consider that an objective reasonable and informed third party would take the same view. The firm and each covered person and network firms have complied with the Financial Reporting Council's Ethical Standard and confirm that we are independent and are able to express an objective opinion on the financial statements.

Following this consideration we can confirm that we are independent at planning and are able to express an objective opinion on the financial statements. In making the above judgement, we have also been mindful of the quantum of non-audit fees compared to audit fees disclosed in the financial statements and estimated for the current year.

Fees and non-audit services

The following tables below sets out the non-audit services charged from the beginning of the financial year to March 2025, as well as the threats to our independence and safeguards have been applied to mitigate these threats. The below non-audit services are consistent with the council's policy on the allotment of non-audit work to your auditor

None of the below services were provided on a contingent fee basis. For the purposes of our audit we have made enquiries of all Grant Thornton teams within the Grant Thornton International Limited network member firms providing services to the Council / Group. The table summarises all non-audit services which were identified. We have adequate safeguards in place to mitigate the perceived threats identified.

Assurance Service Fees

Service	Fees £ Threats Identified	Safeguards applied
Certification of Teacher's Pension Return	12,500 Self-Interest (because this is a recurring fee) (2024/25) Self-review (because GT provides audit services) 12,500 Management (2023/24)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £10,000 in comparison to the scale fee for the audit of £627,256 and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.
		To mitigate against the self-review threat, the timing of certification work is done after the audit has completed, materiality of the amounts involved to our opinion and unlikelihood of material errors arising and the Council has informed management who will decide whether to amend returns for our findings and agree the accuracy of our reports on grants.

This covers all services provided by us and our network to the Council, its directors and senior management and its affiliates, and other services provided to other known connected parties that may reasonably be thought to bear on our integrity, objectivity or independence.

Fees and non-audit services (continued)

Other non-audit services

Service	£ Threats Identified	Safeguards applied
Certification of Housing Capital Receipts Grant	10,000 Self-Interest (because this is a recurring fee) (2024/25) Self-review (because GT provides audit services) 10,000 Management	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £44,850 in comparison to the scale fee for the audit of £627,256 and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.
	(2023/24)	To mitigate against the self-review threat, the timing of certification work is done after the audit has completed, materiality of the amounts involved to our opinion and unlikelihood of material errors arising and the Council has informed management who will decide whether to amend returns for our findings and agree the accuracy of our reports on grants.
Total audit and non-audit fee		
(Audit fee)	489,979	(Non-Audit fee) 22,500

This covers all services provided by us and our network to the Council, its directors and senior management and its affiliates, and other services provided to other known connected parties that may reasonably be thought to bear on our integrity, objectivity or independence.

13 Communication of audit matters with those charged with governance

Communication of audit matters with those charged with governance

Our communication plan	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	•	
Confirmation of independence and objectivity of the firm and senior engagement team members	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern including support measures when making the going concern assessment	•	•
Matters in relation to the group audit, including: Scope of work on components, involvement of group auditors in component audits, concerns over quality of component auditors' work, limitations of scope on the group audit, fraud or suspected fraud	•	•
Key audit partners involved in the audit		•
Views about the qualitative aspects of the Group's accounting and financial reporting practices including accounting policies, accounting estimates and financial statement disclosures		N/A
Methodology used to perform the current year's audit and details of any substantial variation between system and compliance testing from the previous year		•
Quantitative level of materiality determined and qualitative factors considers in its determination		•
Significant findings from the audit		•
Significant matters and issue arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit and whether that deficiency has been resolved by management		•
Significant matters arising in connection with related parties		•

Our communication plan	Audit Plan	Audit Findings
Other matters that are significant to the oversight of the financial reporting process		•
Confirmation of independence of external experts or other auditors used as part of the audit		•
Valuation methods employed and impact of changes to methods		•
Identification or suspicion of fraud involving management and/or which results in material misstatement of the financial statements		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Confirm all requested explanation and documents have been provided		•
Distribution of tasks amongst auditors where more than one auditor has been appointed		N/A
Identify work performed by component auditors outside of the GTIL network in relation to consolidated financial statements		•
Scope of consolidation and compliance with financial reporting framework		•
Expected modifications to the auditor's report, or emphasis of matter		•

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.

Respective responsibilities

As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

14 Delivering audit quality

Delivering audit quality

Our quality strategy

We deliver the highest standards of audit quality by focusing our investment on:

Creating the right environment

Our audit practice is built around the markets it faces. Your audit team are focused on the Public Sector audit market and work with clients like you day in, day out. Their specialism brings experience, efficiency and quality.

Building our talent, technology and infrastructure

We've invested in digital tools and methodologies that bring insight and efficiency and invested in senior talent that works directly with clients to deploy bespoke digital audit solutions.

Working with premium clients

We work with great public sector clients that, like you, value audit, value the challenge a robust audit provides, and demonstrate the strongest levels of corporate governance. We're aligned with our clients on what right looks like.

Our objective is to be the best audit firm in the UK for the quality of our work and our client service, because we believe the two are intrinsically linked.

How our strategu differentiates our service

Our investment in a specialist team, and leading tools and methodologies to deliver their work, has set us apart from our competitors in the quality of what we do.

The FRC highlighted the following as areas of particularly good practice in its recent inspections of our work:

- use of specialists, including at planning phases, to enhance our fraud risk assessment
- effective deployment of data analytical tools, particularly in the audit of journals

The right people at the right time

We are clear that a focus on quality, effectiveness and efficiency is the foundation of great client service. By doing the right audit work, at the right time, with the right people, we maximise the value of your time and ours, while maintaining our second-to-none quality record.

Bringing you the right people means that we bring our specialists to the table early, resolving the key judgements before they impact the timeline of your financial reporting. The audit partner always retains the final call on the critical decisions; we use our experts when forming our opinions, but we don't hide behind them.

Digital differentiation

We're a digital-first audit practice, and our investment in data analytics solutions has given our clients better assurance by focusing our work on transactions that carry the most risk. With digital specialists working directly with your teams, we make the most of the data that powers your business when forming our audit strategy.

Oversight and control

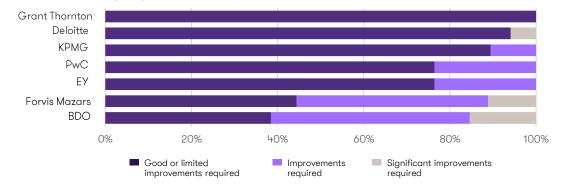

Wherever your audit work is happening, we make sure that its quality meets your exacting requirements, and we emphasise communication to identify and resolve potential challenges early, wherever and however they arise. By getting matters on the table before they become "issues", we give our clients the time and space to deal with them effectivelu.

Quality underpins everything at Grant Thornton, as our FRC inspection results in the chart below attest to. We're growing our practice sustainablu. and that means focusing where we know we can excel without compromising our strong track record or our ability to deliver great audits. It's why we will only commit to auditing clients where we're certain we have the time and resource, but, most importantly, capabilities and specialist expertise to deliver. You're in safe hands with the team: theu bring the right blend of experience, energy and enthusiasm to work with you and are fully supported by myself and the rest of our firm.

15 Appendices

Escalation Policy

The Backstop

The Department for Levelling Up, Housing and Communities have introduced an audit backstop date on a rolling basis to encourage timelier completion of local government audits.

As your statutory auditor, we understand the importance of appropriately resourcing audits with qualified staff to ensure high quality standards that meet regulatory expectations and national deadlines. It is the Authority's responsibility to produce true and fair accounts in accordance with the CIPFA Code by the statutory deadline and respond to audit information requests and queries in a timely manner.

Escalation Process

To help ensure that accounts audits can be completed on time in the future, we have introduced an escalation policy. This policy outlines the steps we will take to address any delays in draft accounts or responding to queries and information requests. If there are any delays, the following steps should be followed:

Step 1 - Initial Communication with Finance Director (within one working day of statutory deadline for draft accounts or agreed deadline for working papers)

• We will have a conversation with the Finance Director(s) to identify reasons for the delay and review the Authority's plans to address it. We will set clear expectations for improvement.

Step 2 - Further Reminder (within two weeks of deadline)

 If the initial conversation does not lead to improvement, we will send a reminder explaining outstanding queries and information requests, the deadline for responding, and the consequences of not responding by the deadline.

Step 3 - Escalation to Chief Executive (within one month of deadline)

 If the delay persists, we will escalate the issue to the Chief Executive, including a detailed summary of the situation, steps taken to address the delay, and agreed deadline for responding..

Step 4 - Escalation to the Audit Committee (at next available Audit & Governance Committee meeting or in writing to Audit & Governance Committee Chair within 6 weeks of deadline)

If senior management is unable to resolve the delay, we will
escalate the issue to the audit committee, including a detailed
summary of the situation, steps taken to address the delay,
and recommendations for next steps.

Step 5 – Consider use of wider powers (within two months of deadline)

If the delay persists despite all efforts, we will consider using
wider powers, e.g. issuing a statutory recommendation. This
decision will be made only after all other options have been
exhausted. We will consult with an internal risk panel to ensure
appropriateness.

Aim

By following these steps, we aim to ensure that delays in responding to queries and information requests are addressed in a timely and effective manner, and that we are able to provide timely assurance to key stakeholders including the public on the Authority's financial statements.&

IFRS reporters New or revised accounting standards that are in effect

First time adoption of IFRS 16
Lease liability in a sale and
leaseback

- IFRS 16 was implemented by LG bodies from 1 April 2024, with early adoption possible from 1 April 2022. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and replaces IAS17. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.
- This year will be the first year IFRS 16 is adopted fully within Local Government.

IAS 1 amendments

Non-current liabilities with covenants

These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.

IFRS reporters Future financial reporting changes

IFRS reporters future financial reporting changes

These changes will apply to local government once adopted by the Code of practice on local authority accounting (the Code).

Amendments to IFRS 9 and IFRS 7 – Classification and measurement of financial instruments

These amendments clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, adds guidance on the SPPI criteria, and includes updated disclosures for certain instruments. The amendments are expected to be adopted by the Code in future years.

IFRS 18 Presentation and Disclosure in the Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements. All entities reporting under IFRS Accounting Standards will be impacted.

The new standard will impact the structure and presentation of the statement of profit or loss as well as introduce specific disclosure requirements. Some of the key changes are:

- Introducing new defined categories for the presentation of income and expenses in the income statement
- Introducing specified totals and subtotals, for example the mandatory inclusion of 'Operating profit or loss' subtotal.
- Disclosure of management defined performance measures
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

IFRS 18 is expected to be adopted by the CIPFA Code in future years.

The Grant Thornton Digital Audit – Inflo

A suite of tools utilised throughout the audit process

Collaborate

Information requests are uploaded by the engagement team and directed to the right member of your team, giving a clear place for files and comments to be uploaded and viewed by all parties.

What you'll see

- Individual requests for all information required during the audit
- Details regarding who is responsible, what the deadline is, and a description of what is required
- Graphs and charts to give a clear overview of the status of requests on the engagement

Ingest

The general ledger and trial balance are uploaded from the finance system directly into Inflo. This enables samples, analytical procedures, and advance data analytics techniques to be performed on the information directly from your accounting records.

What you'll see

- A step by step guide regarding what information to upload
- Tailored instructions to ensure the steps follow your finance system

Detect

Journals interrogation software which puts every transaction in the general ledger through a series of automated tests. From this, transactions are selected which display several potential unusual or higher risk characteristics.

What you'll see

- Journals samples selected based on the specific characteristics of your business
- A focussed approach to journals testing, seeking to only test and analyse transactions where there is the potential for risk or misstatement
