1. Background

1.1 This report is a covering document detailing the content of the Better Care Fund (BCF) 2024-25 End of Year Report. The report is made up of a single document template.

The template is provided by NHS England and is completed jointly between BCP Council and NHS Dorset. The document is as follows.

- Confirmation that National Conditions are being implemented.
- Reporting of local performance against the BCF Metrics year to date.
- Capacity and Demand (C&D) Guidance & Assumptions
- Spend and Activity data
- Updates on narratives relating to C&D, and the metrics
- Year-End Impact summary

1.2 The BCF is a Programme spanning both the NHS and Local Government, which seeks to join-up health and care services, to promote people's ability to manage their own health and wellbeing and live independently in their communities for as long as possible.

1.3 The BCF pooled resource is derived from existing funding within the Health and Social Care System, such as the Disabled Facilities Grant (DFG) and additional contributions from Local Authority and NHS budgets. In addition, grants from Government have been paid directly to Local Authorities i.e. Improved Better Care Fund, which is used for meeting adult social care needs, reducing pressures on the NHS, and ensuring that the social care provider market is supported. The Discharge Fund is also now incorporated into the BCF and is subject to quarterly reporting against spend and activity.

1.4 The end of year report on all schemes and metrics of the Better Care Fund for 2024/25 will be submitted to Better Care England

2. The Better Care Fund 2024-25 End of Year Report

2.1 The planning requirements dictate that this document is presented to the Health & Wellbeing Board on Monday 9 June for approval.

2.2 The health and social care landscape continues to challenge performance, but BCP Council are on track to meet 2024/25 targets for:

- Percentage of people who are discharged from acute hospital to their normal place of residence.
- Unplanned hospitalisation for chronic ambulatory care sensitive conditions.

Performance is not on track for:

- Emergency hospital admissions because of a fall in people aged 65 and over directly age standardised rate per 100,000.
- Rate of permanent admissions to residential care per 100,000 population

2.3 The report shows the spend and activity of all the schemes that are funded through the BCF.

2.4 All schemes are being implemented as planned from the BCF Planning Template 2024/25, which was approved at the 15 July 2024 Health & Wellbeing Board meeting.

3. Summary of Financial Implications

3.1 BCP Council and NHS Dorset continue to monitor BCF budgets and activity for 2023-25 Plan.

3.2 The previously approved plan provides a very detailed breakdown of the spending by scheme type, source of funding and expenditure (See Appendix 2). A high-level view of this is detailed in the table below:
