Good morning

Yes I am very happy for my information to be passed on. I've also seen on Instagram last night that there is a Jamaican bar opened up very close to me too which I had no idea.

Potential that's way Outback, Jamaican bar, Brewhouse, Dancing Jug and The Grove all within a few meters of my flat.

Potentially the noise will be so bad. My son who's 19 doesn't sleep very well with, Friday/Saturday nights being the worse. I've bought him noise cancelling ear buds but he still wakes up. I don't know what else to do to help us with the noise.

I know that my concerns won't really make a difference but I just want people to know slightly what it's now like living above the shops in Southbourne.

I will look for the link on previous emails and see what happens.

Becky

Good afternoon

Im very sorry but I can not attend in February. Im a chef in a care home and i can't get cover for my shift.

Having 2 door people present is great but it still doesn't stop the noise of everyone hanging around on the streets after they close and leaves. That's my issue then using the alley to our flats as a toilet and what ever else they use it decide to use it for.

Christmas and new year this year was the worst we've had for noise here. The addition of another pub (dancing jug) has increased the noise on the main road.

If possible could I be told how the case goes.

Thank you

Becky Hawkins

Thanks Tania,

This is very positive and appreciated, but doesn't address residents' concerns for the raucous noise from customers leaving early in the morning, eg, for a time last summer someone regularly urinated in my footpath.

Kind regards

Pam Hutcheson
